

EVAPORATIVE COOLING

2009 EVAPORATIVE COOLING REBATE PROGRAM Pre-qualified Evaporative Cooling Equipment

The following are lists of evaporative cooling equipment systems that are eligible for rebates from Xcel Energy's 2009 Evaporative Cooling Rebate Program. We will only rebate according to the current approved lists. Please contact us if you know of any qualifying equipment that should be added to our list. These lists are subject to change at any time.

\$500 REBATE LEVEL

To qualify for a \$500 rebate, equipment must be new and have a media saturation effectiveness of 85% or higher, with remote thermostat control and periodic purge water control. Units with add-on equipment do not qualify.

\$200 REBATE LEVEL

To qualify for a \$200 rebate, equipment must be new and have a minimum Industry Standard Rated (ISR) airflow of 2,500 CFM. It must be a permanently installed direct, indirect or two-stage evaporative cooling unit. The rebate amount is \$200 or the purchase price of the evaporative cooling unit as shown on the receipt, whichever is less.

* These units have been discontinued. Rebates will be honored through 2009 only.

Adobe Air is under new ownership. Xcel Energy will honor rebates through 2009 for the Adobe Air models listed here.

The CoolTool by PMI (CTV2) can be installed permanently or serve as a portable unit. Only **permanently installed** units will qualify for the \$200 rebate, portable installs do not. Customers that install this unit permanently must submit photographic proof of the installation along with their rebate application.
