HOW TO COMPLETE YOUR APPLICATION FOR EC MOTORS

We offer prescriptive rebates for EC Motors that replace shaded pole motors within refrigeration cases and walk-ins. Typical applications for this equipment include use in supermarkets, grocery, convenience and liquor stores as well as other commercial businesses.

EQUIPMENT INFORMATION WORKSHEET ON PAGE 2

Rows: Complete the information on a separate row for each specific EC Motor used in either a display case or walk-in cooler.

Columns: Review the heading descriptions below for instructions on what to include under each column.

- **Manufacturer:** Identify the manufacturer.
- **Model #:** Make sure to use the manufacturers' model number, not the part number. Also, make sure you don't transpose or omit any numbers.
- **Quantity:** Fill in the number of controllers of this specific model for which you are seeking a rebate.
- **Rebate Offer:** The rebate offer amount is preprinted in this column.
- **Total Rebate Offer:** Multiply the rebate by the quantity for total rebate. Then add up all sections for the final rebate total.

Rules and Requirements

Qualifying Customers

EC Motors are a component of the Motor and Drive Efficiency program, which is available to Colorado and New Mexico Xcel Energy electric business customers who purchase and install qualifying equipment.

Prescriptive EC Motor Rules

Xcel Energy offers cash rebates to customers for EC Motors. The rebate offer is intended to save energy by increasing motor efficiency. EC motors that qualify for this rebate, are intended **only** for refrigeration use.

Customers must submit the rebate application within 12 months of the invoiced purchase date.

NOTE: EC Motors used for other functions not listed in this application, such as fans within HVAC systems, **do not qualify** for prescriptive rebates at this time.

Custom Efficiency Rebate Program

EC Motors that are not eligible for the prescriptive offer can be submitted through the Custom Efficiency program for preapproval because a utility evaluation and analysis is required prior to equipment purchase and installation. The Custom Efficiency rebate application and program details can be found at xcelenergy.com/CustomEfficiency.

How to Apply for Rebates

1. Fill out the rebate application. Please read the complete Rules and Requirements section on this page.
2. Submit the completed and signed rebate form (page 1 and 2) along with the original paid invoices and manufacturer's specifications to:

energyefficiency@xcelenergy.com

or fax to: 1-800-311-0050

or mail to:

Xcel Energy
Energy Efficiency Specialists
Business Solutions Center
P.O. Box 8
Eau Claire, WI 54702

Please make sure that the supporting equipment information (**model number, horsepower and manufacturer**) match the rebate application claim.

- The customer invoice must show **quantity, model number, horsepower and manufacturer**, and must show whether the evaporative fan driven by the ECM is more than 15 inches or less than 15 inches (diameter).
- **Installation must be complete before submitting rebate application.**
- Maximum rebate is 60 percent of project cost.
- Rebate claims with invoice dates prior to 1/1/12 are not eligible for this prescriptive rebate offer since the offer did not exist prior to this date.

Other Information

- Xcel Energy will issue a rebate in the form of a check, not a utility bill credit.
- Xcel Energy is not responsible for any lost, late, stolen, ineligible, illegible, misdirected or postage due mail. All completed submissions become the property of Xcel Energy and will not be returned. Warning: Fraudulent submission of this form may result in federal prosecution for mail fraud under 18 USC sections 1341, 1342.
- Xcel Energy reserves the right to conduct a random audit of your project before or after issuing a rebate. The customer agrees to provide reasonable access to inspect the installation. Audits may be performed up to one year after the date of the rebate application.

If Xcel Energy finds that the application does not comply with Xcel Energy rules and qualifications, any rebate amount may be adjusted, denied or subject to return.

- Xcel Energy reserves the right to publicize your participation in this program, unless you specifically request otherwise.
- Xcel Energy reserves the right to refuse payment and participation if the customer or contractor violates program rules and procedures. Xcel Energy is not liable for rebates promised to customers as a result of contractor misrepresentation.

This program's rules, requirements and offers are subject to change at any time. The changes will be posted on xcelenergy.com on the **Motor and Drive Efficiency** program page. The program will provide up to 60 days notice of cancellation. The customer is responsible for contacting an energy efficiency specialist to determine whether the program is still in effect and to verify program parameters. Call **1-800-481-4700** or email energyefficiency@xcelenergy.com.

Warranty Information

Warranties are between the customer and the equipment manufacturer(s). Xcel Energy makes no warranties, expressed or implied, with respect to equipment operation, material, workmanship or manufacturing. Xcel Energy does not guarantee that a specific level of energy or cost savings will result from the implementation of energy conservation measures or the use of products funded under this program. In no event shall Xcel Energy be liable for any incidental or consequential damages. Xcel Energy is not responsible for the disposal of motors replaced as a result of this program.

PLEASE ALLOW UP TO EIGHT WEEKS FOR REBATE CHECK TO ARRIVE.
