

A photograph of several potted plants in various colors (pink, yellow, green, grey) sitting on a windowsill. The plants include yellow daisies, purple flowers, and a small green succulent. The background shows a window with blinds and a view of a building.

## Spring into savings with a visit from Home Energy Squad®

Get up to \$200 worth of energy-saving help, for just \$75. For the \$75 fee,\* we'll stop by your home, deliver and install new, energy-saving equipment, like:

- Weatherstripping
- Value LEDs\*\*
- Programmable thermostat
- Faucet aerators
- Showerheads

It's a great way to help you save on your energy bill this season.

\*The \$75 trip charge includes the installation, labor and materials for the basic services outlined above. Additional quantities of items and LED bulbs are available for purchase a la carte. Depending on the availability of our Squads, please allow up to 10 days to schedule your visit.

\*\*Service includes installation of A19 Value LEDs (equivalent to a 60-watt bulb). Value LEDs are not ENERGY STAR®-certified and are not dimmable. Customers who prefer ENERGY STAR-certified LEDs, or need other LED bulb types, may opt to purchase them for an extra fee.
