## EARN REBATES ON ENERGY-EFFICIENT HEATING, VENTILATION, AIR-CONDITIONING AND REFRIGERATION (HVAC-R) SYSTEMS

Property and facility managers who oversee and control temperatures in commercial and industrial spaces know HVAC-R systems are a vital part of any facility. Whether they're used to provide optimal comfort levels for tenants in office buildings, or control high and low temperatures in warehouses and manufacturing plants, these systems play an important role in daily business operations.

Conducting regular maintenance and upgrading to high-efficiency HVAC-R systems can have a big impact on reducing energy use and costs, and our rebates can lower your project costs. Choose from a wide array of options to suit your business needs, from rebates for HVAC-R systems, high-efficiency motors as well as other related systems.

Contact your account manager or an energy advisor at **855-839-8862** to learn more. Visit [xcelenergy.com/HVACR](https://xcelenergy.com/HVACR) for details and to download the rebate application.

### HVAC-R REBATE CATEGORIES

Heating	Ventilation	Air-conditioning
<ul style="list-style-type: none"><li>• Aerators and sprayers</li><li>• Boilers</li><li>• Boiler add-ons<ul style="list-style-type: none"><li>– Linkageless controls for non-condensing boilers</li><li>– Modular burners <math>\geq</math> 5:1 turndown ratio</li><li>– Outdoor air reset controls</li><li>– O<sub>2</sub> trim control</li><li>– Stack dampers</li><li>– Turbulators</li></ul></li><li>• Boiler tune-ups</li><li>• Furnaces</li><li>• Pipe insulation</li><li>• Steam trap repairs or replacements</li><li>• Unit heaters</li><li>• Water heaters</li></ul>	<ul style="list-style-type: none"><li>• Energy recovery ventilators</li><li>• High-volume, low speed fans</li><li>• Variable frequency drives (VFDs): HVAC and non-HVAC for both fans &amp; pumps</li></ul>	<ul style="list-style-type: none"><li>• Chillers</li><li>• DX units</li><li>• Heat pumps (mini split/water source)</li><li>• PTACs</li><li>• VFD retrofits for chillers</li></ul>
	Refrigeration	Other related
	<ul style="list-style-type: none"><li>• Anti-sweat heater controls for freezers and coolers</li><li>• Close the case for freezers and coolers</li><li>• Defrost controls for walk-in freezers</li><li>• EC motors</li><li>• Evaporative motor fan controllers</li><li>• Floating head pressure controls</li><li>• LEDs for refrigerated cases</li><li>• Medium temp enclosed reach in cases</li><li>• No heat case doors (coolers and freezers)</li><li>• Permanent magnet synchronous motors for display cases</li></ul>	<ul style="list-style-type: none"><li>• Fractional HP ECM pumps and HP ECM HVAC fans</li><li>• Motors</li><li>• Water well pump VFDs</li></ul>

Visit [xcelenergy.com/HVACR](https://xcelenergy.com/HVACR) to view rebate levels, eligibility requirements, qualifying equipment specifications and rules.

### Did you know?

If your energy-saving project doesn't qualify for one of our standard rebates listed, it may be eligible for a custom rebate. Custom rebates require application submittal before equipment order, purchase, or installation. Visit [xcelenergy.com/CustomEfficiency](https://xcelenergy.com/CustomEfficiency) to learn more.
