

# BUSINESS LED INSTANT REBATES

INFORMATION SHEET  
MINNESOTA

## FACILITIES SAVE MORE WITH ENERGY-EFFICIENT LIGHTING

Did you know that the average commercial business wastes 30 percent of the energy it consumes?<sup>1</sup> If your business is still using inefficient, conventional lighting, it could account for a considerable amount of wasted energy every year. By simply upgrading to screw-in or pin-based LEDs, you can save money and energy, and our instant rebates can help you make the switch at a lower cost.

### Get discounts with our Business LED Instant Rebates

Our Business LED Instant Rebate provides you with the opportunity to purchase qualifying screw-in or pin-based LEDs at a discount, directly from participating distributors. By lowering the cost difference between energy-saving LEDs and traditional standard wattage products, our instant rebates are designed to help you make the transition from using inefficient, incandescent and halogen lamps.

### How does it work?

As an Xcel Energy commercial, electric customer, or if you are an electrical contractor working on behalf of an Xcel Energy customer, you can take advantage of our instant rebates simply by purchasing qualifying screw-in or pin-based LED lamps from one of our 60+ participating distributors (a list can be found at [xcelenergy.com/LightingEfficiency](http://xcelenergy.com/LightingEfficiency)). When purchasing lamps, the rebate is paid at the point of sale as a discount on your lamp invoice. There are no rebate forms to complete and no wait for rebate checks to be mailed when you purchase qualifying lamps. Simply provide the installation address for the lamps and the distributor will apply the discount.

### Eligible products and rebates

The following product categories qualify for Xcel Energy Business LED instant rebates. Higher rebate levels are available for ENERGY STAR<sup>®</sup> qualified products. Rebates are 25% less for non-ENERGY STAR and require pre-approval from the CLEARResult program lead.

### Minnesota Business LED Instant Rebates

#### Rebates effective January 1, 2022:

PRODUCT CATEGORY	ENERGY STAR QUALIFIED REBATE	non-ENERGY STAR REBATE
A-Lamp, 0-749 lumens	\$1.00	\$0.75

PAR30, BR30	\$5.00	\$3.75
PAR38	\$10.00	\$7.50
BR40	\$6.00	\$4.50
Downlight Retrofit Kit	\$9.00	\$6.75

### Save more than just energy

ENERGY STAR lamps use up to 90 percent less energy than traditional incandescent bulbs, and last up to 15 times longer.<sup>2</sup>

- Save on replacement and maintenance costs with long-lasting LEDs.
- LEDs emit almost no heat, which can also help reduce cooling costs.

### Questions?

For more information, please contact your representative, **Beth Neiss**, Midstream Lighting Trade Relations Manager, 612-508-8167, [Beth.Neiss@CLEARResult.com](mailto:Beth.Neiss@CLEARResult.com).

Lamps and rebate amounts are subject to change.

There is a requirement for a minimum customer contribution. Customers must contribute at least \$1 per lamp or retrofit kit.

CLEARResult implements the Business LED Instant Rebate program on behalf of Xcel Energy.
