COOLING REBATES

INFORMATION SHEET
MINNESOTA

Xcel Energy®

Cooling savings are not just for the peak of summer. Efficiency cooling is now a year-round opportunity to increase the facilities' energy savings. No matter the season, old or inefficient equipment can drive up your cooling costs. Our cooling rebates can off-set up-front costs associated with the replacing energy efficient equipment.

Our rebates can add up fast and are available on a wide range of products designed to help you save on long-term energy costs and increase the comfort of your employees and customers.

- **Install a new, high-efficiency cooling system** including DX units, PTACs, chillers and more
- **Improve the efficiency of your facility** with a system upgrade or by adding controls to boost the efficiency of the HVAC equipment and systems.
- **Increase the comfort of your tenants** and or employees by upgrading your aging cooling equipment and or system.

Contact your account manager or an energy efficiency specialist at 855-839-8862 with any questions. To view our full line of HVAC-R rebates, **visit our website.**

Cooling Rebates FAQ

Who can earn rebates on cooling equipment?
Any of our Minnesota commercial customers can earn rebates on qualifying DX units, PTACs, Heat Pumps, Mini-split heat pump cooling-only, and many more equipment. Customers and vendors can submit the completed project paperwork via the convenient digital application process (DAP) for equipment installed and operational in Minnesota, or submit the application to **EnergyEfficiency@xcelenergy.com**.

For DX units less than 20 tons need to be submitted by one of the cooling trade partners in the **HVAC-R Trade Partner Driven Rebates**.

Facilities that benefit from cooling rebates
Cooling equipment can be installed at a variety commercial and industrial facilities located in Xcel Energy's Minnesota commercial service territory. Below are examples of facility types that benefit from Xcel Energy cooling rebates.

- Office
- Grocery
- Hotel/Lodging
- Retail
- Manufacturing
- Warehouse
- Hospitals/Medical offices
- Restaurants
- Nursing home
- Fitness center
- Education
- University

COOLING REBATES

When do I receive my rebate?
You can expect to receive a rebate check in the mail within 6 to 8 weeks. You must submit completed project paperwork within 24 months from the invoice date for qualifying equipment purchases.

Available Xcel Energy Cooling rebates

- Chillers – air-cooled
- Chillers – centrifugal
- Chillers – screw/scroll
- DX units; condensing units, rooftop, split systems
- Direct Expansion (DX) Air-Cooled Condensing Units including rebate for the replacement of the refrigeration circuit only
- Heat pumps – mini split heating and cooling or cooling only
- Heat pumps – water source
- PTACs
- VFD retrofit for chiller (for air- or water-cooled chillers)

See the HVAC-R Solutions web page for details on the rebates available on Xcel Energy cooling rebates and more.

Want to save even more energy and money?

Add Saver's Switch® free of charge to your cooling equipment to receive a discount of $5 per AC ton on four electric bills. Saver's Switch cycles air conditioners off and on to help reduce demand during peak periods. See **here** for additional details and criteria.
