Northern States Power Company
2022 Test Year
Charitable Contributions

Gas	**2022**
Charitable Contributions	80,395.01
Total	80,395.01
50% inclusion	**40,197.51**

The Company is permitted to recover 50 percent of charitable contributions benefiting Minnesota. Because charitable contributions are initially recorded below the line, an adjustment is necessary to include these costs in the test year.

In 2021-2023, the Company anticipates utilizing $17.5 million (Xcel Energy consolidated) in proceeds from the sale of the Mankato Energy Center (MEC) to cover Xcel Energy Foundation funding. This approach reduces the amount of charitable contributions included in NSPM rates while keeping the Company's charitable giving levels steady. Specifically, MEC proceeds are anticipated to fully fund the foundation in 2021 and 2022, leaving only the 2021-2023 Other Donations and a portion of the 2023 foundation funding in rates.

The Company's charitable contributions budget was then further reduced for ratemaking purposes by adjusting the test year and plan year budgets to reflect the actual 2020 contributions that should remain below the line. This application of a 2020 adjustment to the test year provides consistency and comparability across the test year, bases the adjustment on the most recent year of actual data, and is consistent with the Company's employee expense adjustment process.

Finally, the Company makes the adjustment to include 50 percent of the net foundation funding and Other Donations in its revenue requirement.

Northern States Power Company
2022 Test Year
Association Dues

Gas	**2022**
Association Dues Excluded	11,250.30

An adjustment is required to remove costs associated with organizational dues that are not allowed for recovery from customers. Consistent with the Commission's June 14, 1982 Statement of Policy on Organizational Dues, the Company is required to reduce administrative and general expenses for either social organizations or organizations not associated with the State of Minnesota.

The Association Dues adjustment for the rate case was based on an allocation of 2020 actual allowances applied to the applicable test year budget. This was done to provide consistency and comparability across the test year and to base the adjustment on the last year of actual data consistent with the employee expense adjustment.

Summary of Research and Development Activities Expense for 2022
State of Minnesota - Gas Utility
($s)

Item	2022 NSPM	Percent to NSPM Gas	Percent to MN Gas Jurisdiction	2022TY MN Gas Jurisdiction
Gas Technology Institute[1]	$ 5,450	100.00%	88.65%	$ 4,831
Low Carbon Resource Initiative[2]	$ 494,343	6.41%	88.65%	$ 28,071
Total	$ 499,793			$ 32,902

[1] Xcel Energy is participating in HyBlend, a research project led by National Renewable Energy Lab (NREL) and Gas Technology Institute (GTI) to address the technical barriers associated with blending hydrogen in natural gas infrastructure. This two-year project will start in fall of 2021 with $15 million in funding contributed by the Department of Energy (DOE) Office of Energy Efficiency and Renewable Energy and 20 participating utilities. The project will utilize expertise from utilities, research consortia, academia, and national labs to determine if hydrogen can be safely blended in existing natural gas systems to reduce the carbon intensity of fuel delivered to customers. The amount noted above reflects the portion of the GTI invoiced expense allocated to the NSPM Gas Utility for 2022.

[2] The Low Carbon Resource Initiative or LCRI ($6.25M over 5 years, 2021-2025) is a focused R&D commitment to develop the pathways to advance low-carbon technologies for large scale deployment. Jointly led by EPRI and GTI, the goal of LCRI is to enable a risk-informed understanding of options and technologies enabling significant economy-wide decarbonization through global partnerships and demonstrations; applied engineering developments and technology acceleration of most promising options. The project expense noted above reflects the portion of the LCRI budgeted costs allocated to the NSPM Gas Utility for 2022.
