

## ➤ **Summary of 60-Day Notice: Insulation & Air Sealing**

Public Service Company of Colorado (“the Company”) posts this 60-Day Notice to make changes to the Insulation and Air Sealing product in response to the 2017 Comprehensive Evaluation.

The evaluation provided key findings in the areas of net-to-gross, data collection, midstream efficiency tiers, trade partner communication, cost effectiveness suggestions, create a detailed logic model, track key performance metrics, perform a market baseline study. The Company will implement the following recommendations in 2018:

- Conduct more customer-facing outreach designed to steer customers considering an insulation upgrade to participating trade partners.
- Explore ways to strengthen the market differentiation that participating trade partners receive and facilitate trade partner-based marketing.
- Increase targeting of customers with the greatest and most cost-effective insulation and air sealing opportunities, such as those in older homes or with high usage.
- Explore ways to increase flexibility in the measure structure without compromising on the product’s use of BPI standards or its emphasis on comprehensive shell upgrades.
- Impact Results: Use of 0.85 NTGR.

**Table 1: Summary of Forecasted Impacts: Residential Insulation and Air Sealing**

	2018	
	<i>As Filed</i>	<i>Revised per 60-day</i>
