

**NOTICE OF A CHANGE IN THE ELECTRIC RATES OF  
PUBLIC SERVICE COMPANY OF COLORADO  
1800 LARIMER STREET, DENVER, COLORADO 80202**

You are hereby notified that Public Service Company of Colorado has filed with the Colorado Public Utilities Commission an advice letter seeking approval to update the fixed Solar\*Rewards Community Service (“SRCS”) Credit for each rate schedule and the components of the Commercial and Industrial (“C&I”) customer specific credits to become effective January 1, 2021, pursuant to Commission Decision No. C12-0606 (mailed June 8, 2012) in Proceeding No. 11A-418E.

Specifically, the Company files this advice letter to update the SRCS Credit factors beginning January 1, 2021 and ending December 31, 2021 in its Colorado P.U.C. No. 8 - Electric tariff. The proposed Fixed SRCS Credits for all secondary rate service schedules will result in a decrease in the credit when compared to the SRCS Credits that were filed on November 15, 2019, except for rate schedule Residential Demand (Schedule RD) where the rate increased. The proposed Fixed SRCS Credits for all primary and transmission service schedules will result in an increase in the credits when compared to the SRCS Credits that were filed on November 15, 2019. The revenue effect on the Company from these changes to SRCS credits is minimal.

The changes in credits were primarily due to the removal of the Demand Side Management-related components of the credit,<sup>1</sup> partially offset by an increase in the base rate charges.

The proposed rate changes for customers by Service Schedule are as follows:
