RULES AND REGULATIONS

NATURAL GAS SERVICE

GENERAL

CUSTOMER'S INSTALLATION - Cont'd

Before any additions to or alterations of existing installations are made by customer which will materially affect the amount of service required, or which may require a change in the type of service or the Point of Delivery, the Company must be notified reasonably in advance thereof as to the proposed additions or alterations in order that the Company may first determine if the service desired is available and, if so, that the necessary changes in the Company's facilities may be arranged for and completed.

All gas piping and other natural gas equipment on the customer's side of the Point of Delivery will be furnished, installed and maintained at all times by the customer in conformity with good practice and with the requirements of the Standards of the National Board of Fire Underwriters for the Installation, Maintenance and Use of Piping, Appliances and Fittings for City Gas, any Municipal Ordinances or Codes, and in accordance with the Company's Rules and Regulations. Company accepts no liability for injury or damage caused by defects in customer's piping or equipment.

No equipment or apparatus will be connected to Company's distribution system the operation of which may cause such an abnormal pressure variation in said system as to impair or endanger the natural gas service supplied to other customers on said system or to adversely affect operation of Company's metering or pressure regulating equipment. In the event that equipment having a high instantaneous demand such as a gas engine is to be connected, customer shall provide adequate pulsation or surge tank, shutoff valves and other protective devices as may be required by Company. Customer shall, in every case, confer with Company before any equipment or apparatus requiring extremely close regulation of pressure or quality of gas is connected to Company's distribution systems.

When the Company is required by order of properly constituted authorities to move or alter its existing distribution system, thereby necessitating a change in the location of the service lead and the Point of Delivery, the Company will designate a new Point of Delivery to which the customer, at his expense, will bring the service lead.

Service will be delivered to the customer for each premises at one Point of Delivery designated by the Company.

The Company reserves the right to require the customer to reimburse the Company for any cost due to a change in meters or other apparatus or in their location made at the request of the customer. In the instance of a customer request to voluntarily and permanently disconnect from the distribution system, Company will do so at no charge to the customer, unless otherwise permitted by the Commission. Meters and other equipment of the Company will be removed or relocated only by employees or agents of the Company.

RULES AND REGULATIONS

NATURAL GAS SERVICE

DISTRIBUTION EXTENSION POLICY

DEFINITION OF TERMS - Cont'd

Commercial Service Lateral Agreement - An agreement between the Company and the Applicant that sets forth the terms and conditions of providing the requested Commercial Service Lateral in addition to this Distribution Extension Policy. The cost responsibility of the Applicant under this Agreement will be based upon the Company's estimate of the cost of constructing and installing the facilities necessary to adequately supply the service requested by the Applicant, less a Commercial Service Lateral Construction Allowance.

Compressor Station - A Compressor Station is a compression facility that is installed, owned and maintained by the Company for the purpose of compressing natural gas.

Construction Allowance - The amount as listed on the sheet entitled Construction Allowance by Customer Class and Rate Schedule in this Gas Tariff. Construction Allowances apply to On-Site Distribution Extension Agreements, Residential Service Lateral Agreements, and Commercial Service Lateral Agreements, and may apply to Off-Site Distribution Main Extension Agreements as set forth herein. Construction Allowance is only available in the instance the Applicant provides to the Company, prior to the Company issuing the applicable Agreement and request for payment, an approved plat, permit, or development plan by the authority having jurisdiction, which was approved or pending as of August 7, 2023, and if pending, approved on or before December 31, 2024. Receipt of such an approved plat, permit, or development plan to receive Construction Allowance is applicable to Applications received on or after the effective date of this tariff.

Construction Payment - Amount advanced prior to construction, except as otherwise provided herein, by Applicant to pay all Construction Costs in excess of Construction Allowance and/or Off-Site Distribution Main Extension Credit, if applicable.

Distribution Extension Facilities - The facilities associated with the Off-Site Distribution Main Extension, On-Site Distribution Extension, Residential Service Lateral Extension, Commercial Service Lateral Extension, or Distribution Reinforcement necessary for gas service at premises not connected to the Company's distribution system or for an increase in service to premises already connected where such increase necessitates additional investment, which requires an extension. RULES AND REGULATIONS

NATURAL GAS SERVICE

DISTRIBUTION EXTENSION POLICY

DEFINITION OF TERMS - Cont'd

Off-Site Distribution Main Extension may include a Transmission Main as determined by Company in its reasonable discretion.

Distribution Main - Natural gas pipeline operated by the Company, located downstream of the transmission areas, that may be smaller in diameter and operate at lower pressures than the Company's Transmission Main.

Distribution Reinforcement - Increase in size of existing facilities necessitated by Applicant's estimated gas requirements associated with Distribution Extension Facilities.

Estimated Construction Costs or Construction Costs - The estimated costs of all facilities necessary to construct and install the Off-Site Distribution Main Extension, On-Site Distribution Extension, Service Lateral Extension, or Distribution Reinforcement, including satisfactory rights-of-way and shall not include or be determined with reference to provision for additional capacity, size or strength in excess of that necessary to meet the requirements of the Company's standards required to serve the load. Standardized costs may be utilized as the estimated cost for certain On-Site Distribution Extensions and Service Lateral Extensions as stated throughout this Distribution Extension Policy. Necessary costs shall be determined with the Company's standard unit construction costs.

Extension Completion Date - The date on which the construction of an Off-Site Distribution Main Extension, On-Site Distribution Extension, Service Lateral Extension, or Distribution Reinforcement is completed as shown by the Company's records.

Facilities Extension Agreement - A general term for the agreements between the Company and Applicant that set forth the terms and conditions of providing the requested extension service in addition to this Distribution Extension Policy. The Company has four (4) such agreements: 1) Off-Site Distribution Main Extension Agreement, 2) On-Site Distribution Extension Agreement, 3) Residential Service Lateral Agreement, and 4) Commercial Service Lateral Agreement.

NATURAL GAS SERVICE

DISTRIBUTION EXTENSION POLICY

GAS METER AND PIPING INSTALLATIONS

Company will furnish the appropriate meter and Customer regulators to supply Applicant's requirements and install same along with associated Meter Piping defined as Meter Set. Applicant will provide all facilities necessary for proper meter and regulator installation in conformance with the Company's standards for such installation. Separate charges will be made for meter piping to additional meter locations in the same building except in the case of a meter header. Customer is responsible for ~~fifty percent (50%) of~~ applicable initial standardized Meter Set costs as Customer Payment to Service Lateral Agreement. D

Title to Service Lateral Extensions, Meter Piping, meters, and regulators shall at all times vest in Company.

CONSTRUCTION ALLOWANCE AND CONSTRUCTION PAYMENTS

PERMANENT SERVICE

Permanent Service is applicable to Off-Site Distribution Main Extensions, On-Site Distribution Extensions, and Service Lateral Extensions where the use of service is to be permanent.

For gas service of a permanent character, the Company will provide a Construction Allowance for necessary On-Site Distribution Extension, Residential Service Lateral facilities based on the gross embedded distribution plant investment per Customer or per Dekatherm (Dth). The remainder of the Construction Cost shall be paid by the Applicant as a Construction Payment. The Construction Allowances and Construction Costs and Credits are listed on the sheets entitled Construction Allowance by Customer Class and Rate Schedule and Standard Construction Costs and Credits for each of the various classes of service.

For governmental entities, Applicant may elect to have the Company advance the Construction Payment for a Facilities Extension Agreement for the duration of the construction period as follows. The Company shall charge the governmental Applicant interest applied to the Construction Payment amount for the applicable construction period at the Company's Allowance For Funds Used During Construction (AFUDC) rate. The Company shall bill the governmental Applicant for the Construction Cost and the interest within thirty (30) days after the Extension Completion Date. The governmental Applicant shall pay the Company within ninety (90) days after the Extension Completion Date.

STANDARD CONSTRUCTION COSTS AND CREDITS

Construction Costs

Residential On-Site Distribution Extension Per Lot Cost	\$ 1,688	
Residential Service Lateral Extension < 100 Ft. Cost	\$ 1,521	I
Residential Service Lateral >100ft. Cost Per Foot	\$ 9.46	

Per Meter Set Costs (customer share)

Residential Per Meter Set Cost	\$ 291	I
CSG Per Meter Set Cost	\$ 1,690	I
All Other Per Meter Set Cost	\$ 6,338	I

Off-Site Distribution Main Extension Credit (not available for applications dated on or after November 1, 2023 unless terminated earlier pursuant to Commission decision)

Off-Site Distribution Main Extension Credit 28.00%

The above costs and credits may be recalculated and revised from time to time as determined necessary by the Company based on the same method(s) as approved by the Commission. An additional charge may be applicable for special items, including without limitation any Applicant-associated delays; obstructions; permit fees; or any special item required to meet construction conditions, including but not limited to frost conditions and rock conditions.

The Off-Site Distribution Main Extension Credit is a twenty-eight percent (28%) credit applied to an Applicant's Construction Costs for an Off-Site Distribution Main Extension. In the event that excess Construction Allowance is awarded to an Off-Site Distribution Main Extension, this credit shall be applied after the Construction Allowance has been applied. The Off-Site Distribution Main Extension Credit is not available for applications dated on or after November 1, 2023 unless terminated earlier pursuant to Commission decision.
