

**NOTICE OF IMPLEMENTATION OF THE INCLUSIVE COMMUNITY SOLAR  
PROGRAM (“ICS”) OF PUBLIC SERVICE COMPANY OF COLORADO  
3500 BLAKE STREET, DENVER, COLORADO 80205-5790**

You are hereby notified that Public Service Company of Colorado (“Company”) has filed with the Colorado Public Utilities Commission (“Commission”) in compliance with the Public Utilities Law, Advice No. 2027- Electric to implement its Inclusive Solar Rewards (“ICS”) Program in its Colorado P.U.C. No. 8 – Electric tariff to become effective on July 9, 2026, if approved by the Commission.

The principal proposed change is to implement the new ICS program applicable to most electric base rate schedules in the Company’s P.U.C No. 8 – Electric Tariff, to become effective July 9, 2026. This revision is made in accordance with Commission Decision No. C26-0213 (issued on April 7, 2026), adopting Decision No. R26-0064 (issued on January 28, 2026) in Proceeding No. 25A-0194E (the “Decision”); the Colorado Public Utilities Law; and the applicable rules of the Public Utilities Commission of the State of Colorado (“Commission”), including Rule 1210, 4 *Code of Colorado Regulations* (“CCR”) 723-1. The Solar Rewards Community (“SRC”) tariff included herein has been modified to incorporate applicable law and the Settlement Agreement, which was filed in the Proceeding on November 17, 2025, and as approved through the Decision.

The Company seeks to implement the new Inclusive Community Solar (“ICS”) program, consistent with the Decision and Senate Bill 24-207 (SB 24-207). As part of SB 24-207, the ICS program replaces the SRC program, under which new capacity ceased to be allocated on December 31, 2025. The ICS and SRC programs share many features, including a bill credit methodology, but the ICS program includes programmatic roles, requirements, and options that are not reflected in the SRC program.

Through this filing, the Company is modifying the SRCS tariff to incorporate ICS. The new Schedule ICS describes programmatic details that are specific to ICS, including definitions, programs requirements, and billing. In addition, SRCS Credits have been renamed CSG Credits to reflect that the credits apply to all the Company’s community solar programs, namely SRC and ICS.

A rate trend report is not required because this tariff change will not increase customer rates.

Copies of the current and proposed tariffs summarized above and as filed with the Commission, are available for examination and explanation at the main office of Public Service, 3500 Blake Street, Denver, Colorado 80205-5790, and available by appointment at the Commission office, 1560 Broadway, Suite 250, Denver, Colorado 80202-5143. Written comments or objections shall be filed with the Commission, 1560 Broadway, Suite 250, Denver, Colorado 80202-5143 or entered at: <https://puc.colorado.gov/participate>. The Commission may hold a public hearing in addition to an evidentiary hearing on the proposed action and that if such a hearing is held, members of the public may attend and make statements even if they did not file comments, objections, or an intervention. If the proposed action is uncontested or unopposed, the Commission may determine the matter without a hearing and without further notice.
