

# TRANSPORTATION ELECTRIFICATION PLAN ADJUSTMENT RIDER

Colorado Public Utilities System

Transportation now produces more carbon emissions than any other sector of the American economy. To achieve Colorado's climate and air quality goals, Xcel Energy committed to help drivers, communities and businesses plug in and power up electric vehicles. Now we've launched EV charging and rebate programs for homes, places of business and communities.

As we continue to cut greenhouse gas emissions on our system, electric vehicles will run on ever-cleaner energy. Today, an EV powered by electricity from Xcel Energy Colorado produces 50% less carbon than a gasoline-powered car. That's expected to jump to an estimated 85% reduction in carbon emissions from 2005 levels by 2030.

## How the TEPA rider works

In December 2020, the Colorado Public Utilities Commission approved Xcel Energy's 2021–2023 Transportation Electrification Plan (TEP) and the rider mechanism, the Transportation Electrification Programs Adjustment (TEPA), to recover TEP-related costs. On October 4, 2022, Xcel Energy – Colorado filed its annual TEPA rider forecast filing to update the rates reflected in the TEPA based on the TEP revenue requirement for 2023 to take effect January 1, 2023, if granted by the Commission.

The revenue effect of this filing is a net change in the company's annual revenue of \$2,260,713 compared to the rates currently in effect. This revenue requirement is made up of the 2023 revenue requirement of \$7,744,288 plus a refund adjustment of \$5,483,576 from the true-up of the 2021 TEPA rider.

The effect of this filing on Xcel Energy's average Colorado residential electric bill is an increase of 7 cents per month to \$80.33, or 0.08%. The average small commercial electric bill would increase 9 cents per month to \$130.88, or 0.07%.

## We are always here for you

Customers who may have trouble paying their bill should call us right away at **800-895-4999**. We can answer questions and provide information about energy efficiency, rebates, payment options and programs for those who qualify for energy assistance.

Details about this request, including the legal notice and bill impacts, are available at [xcelenergy.com/Company/Rates\\_and\\_Regulations/Filings/Transportation\\_Electrification\\_Plan](https://www.xcelenergy.com/Company/Rates_and_Regulations/Filings/Transportation_Electrification_Plan).

## Estamos siempre a su disposición

Los clientes que puedan tener problemas para pagar su factura deben llamarnos de inmediato al **800-895-4999**. Podemos responder preguntas y proporcionar información sobre eficiencia energética, reembolsos, opciones de pago y programas para aquellos que califican para la asistencia de energía.

Los detalles sobre esta solicitud, incluido el aviso legal y los impactos en las facturas, están disponibles en [xcelenergy.com/Company/Rates\\_and\\_Regulations/Filings/Transportation\\_Electrification\\_Plan](https://www.xcelenergy.com/Company/Rates_and_Regulations/Filings/Transportation_Electrification_Plan).
