

Xcel Energy Minnesota Commercial and Industrial Electric Prices

(Effective June 1, 2019)

Welcome to Xcel Energy

We are your energy partner and want to help you understand more about the electric services we offer and the rates you see on your energy bill. This brochure simplifies rate information and explains your service options. Please call the Xcel Energy Business Solutions Center at **800.481.4700** for current prices or bill information.

Electric Commercial and Industrial (C&I) services and rates

The electricity you use is measured in kilowatt-hours (kWh), recorded by your electric meter and shown on your bill each month under Meter Reading Information. Your kWh use, kWh charge and other charges relating to your electric service appear on your bill under Electric Charges.

Small general service prices

This service is available to any non-residential customer for single- or three-phase electric service supplied through one meter where the maximum demand requirement is less than 25 kilowatts (kW).

The basic service charge of \$10 covers the fixed costs of metering, billing, customer service and other costs that do not vary with the amount of electricity you use.

Energy Charge per kWh:

June through September.....	\$0.09256
October through May.....	\$0.07757

General service prices

This service is available to any nonresidential customer for single- or three-phase electric service. This is a demand-metered service supplied at these nominal voltages:

- Secondary—single- or three-phase from 208 volts (V) up to 2,400 V
- Primary—three-phase from 2,400 V up to but not including 69,000 V
- Transmission—three-phase at 69,000 V or higher
- Transmission Transformed—three-phase from 2,400 up to 69,000 V but not including where service is provided at Xcel Energy's disconnecting device at a distribution substation transformer

Basic Service Charge.....	\$25.64
---------------------------	---------

Service at Secondary Voltage:

- Demand Charge per kW
 - June through September.....\$14.79
 - October through May.....\$10.49
- Energy Charge per kWh.....\$0.03407
- Energy Charge Credit per kWh.....\$0.01518

Energy Charge credit applies to kWh used in excess of 400 hours times the billing kW, based on a 30-day month.

The demand charge is applied to each month's billing kW, which is the maximum 15-minute average actual kW demand measured during the billing month, rounded to the nearest whole number. Billing demand is adjusted upward if the power factor shown on the bill is below 90 percent, or to equal half of the highest billing kW during the preceding 11 months. However, monthly billed kW will never exceed the kW value determined by dividing billed kWh sales by 100 hours, based on a 30-day month. If the billing demand is less than 25 kW for 12 consecutive months, you have the option to transfer to Small General Service.

- Service at Higher Voltages

The above prices except for the Energy Charge Credit are reduced by the following Voltage Discounts:

	Per kW	Per kWh
Primary	\$0.80	\$0.00105
Transmission Transformed	\$1.55	\$0.00267
Transmission	\$2.35	\$0.00277

Optional electric services

Please call the Xcel Energy Business Solutions Center at **800.481.4700** to help determine which service and rate are best for your electric needs and to sign up for an optional service.

Peak controlled rate options

These options offer discounted prices for C&I customers willing to interrupt a portion of their service when asked to do so. Please contact Xcel Energy for information on these and other rate options.

Controlled air conditioning service prices – optional service

This optional service is available to customers with central air conditioning that is under Xcel Energy's control. Xcel Energy will normally control air conditioners on a schedule of 15 minutes on and 15 minutes off during high demand summer weekdays. The interruption may occur up to a maximum of 300 hours per year. You must remain on it for a minimum of one year. Your monthly bill will show a Controlled Air Conditioning Credit (\$5 per ton per summer billing month) during the June through September billing months in addition to all other normal charges.

Time of day service option

	Small general time of day service options	General time of day service option*
<p>On this service, the energy price is higher during on-peak times when electricity is more expensive to generate and lower during off-peak times when it is less expensive to generate.</p> <p>Minimum term is 12 months. Optional Trial Service charge for returning to standard service after three months is \$25 for Small General Service and \$35 for General Service.</p> <p>On-Peak: 9 a.m. to 9 p.m., Monday through Friday</p> <p>Off-Peak: All other hours, plus New Year's Day, Good Friday, Memorial Day, Independence Day, Labor Day, Thanksgiving Day and Christmas Day; and Fridays directly before Saturday holidays and Mondays immediately following Sunday holidays.</p>	<p>Basic service charge\$12.00</p> <p>Energy charge per kWh</p> <p>On-peak:</p> <p style="padding-left: 20px;">June through September.....\$0.14880</p> <p style="padding-left: 20px;">October through May.....\$0.11723</p> <p>Off-peak:</p> <p style="padding-left: 20px;">All months\$0.04170</p> <p>Continuous 24-hour energy:</p> <p style="padding-left: 20px;">June through September.....\$0.07919</p> <p style="padding-left: 20px;">October through May.....\$0.06814</p>	<p>Basic service charge \$29.64</p> <p>On-peak period demand charge per kW:</p> <p style="padding-left: 20px;">June through September..... \$14.79</p> <p style="padding-left: 20px;">October through May.....\$10.49</p> <p>Off-peak demand in excess of</p> <p style="padding-left: 20px;">On-Peak Period Demand per kW.....\$2.35</p> <p>Energy charge per kWh:</p> <p style="padding-left: 20px;">On-peak \$0.04855</p> <p style="padding-left: 20px;">Off-peak \$0.02341</p> <p>Energy charge credit\$0.01518</p> <p>If service is other than Secondary Voltage, General Service Voltage Discounts are applicable to the above prices except for the Energy Charge Credit. Billing demand adjustments also apply to this optional service.</p> <p><small>*Mandatory for very large customers (over 1000 kW demand).</small></p>

Energy-controlled service (non-demand metered) prices – optional service

This optional service is available to Xcel Energy customers with permanently connected, separately served, interruptible electric heating loads up to 50 kW that are under Xcel Energy's control. Qualifying electric loads include storage space heating, water heating systems and other loads subject to Xcel Energy's approval that can be served by electricity and an alternate fuel. When demand on our system increases near the level where we need to use a less efficient power plant or set new peak demands, electric service is interrupted and the customer uses alternate fuel to supply heating needs. You must remain on this service for a minimum of one year.

Basic Service Charge.....	\$4.95
Energy Charge per kWh.....	\$0.04487

Optional Energy Charge is available to customers with heat pump installations for non-interruptible service during June through September billing months.

June through September.....	\$0.09256
October through May.....	\$0.04487

Limited off peak service prices – optional service

This optional service is available to Xcel Energy customers with permanently connected loads which the customer or Xcel Energy would control and energize only from 10 p.m. to 6:30 a.m. daily. Charges vary by service phase and voltage.

Basic service charge:	
Secondary voltage-single phase.....	\$10.00
Secondary voltage-three phase.....	\$13.60
Other voltages	\$60.00
Transformed and transmission voltage	
Energy charge per kWh by voltage:	
Secondary	\$0.03665
Primary	\$0.03560
Transmission transformed.....	\$0.03398
Transmission	\$0.03388

Automatic protective lighting service prices – optional service

This optional service is available to customers for nighttime security lighting. For each lighting unit your monthly bill will show one of the following charges:

100 Watt Area Lighting	\$7.41
250 Watt Area Lighting	\$11.83
250 Watt Directional Lighting	\$14.08
400 Watt Directional Lighting	\$17.62

Minimum charge

Your monthly minimum bill will always include the Basic Service Charge or any applicable customer charge even if energy use for the month is zero.

Fuel cost charge

The Fuel Cost Charge recovers the cost of fuel used to produce electricity and energy purchased on the wholesale electricity market. This charge differs slightly by customer class based on class energy use patterns and is updated monthly for current costs. For demand-metered Time of Day customers, the average Fuel Cost Charge is further divided into on-peak and off-peak charges.

Resource adjustment

The Resource Adjustment line item includes the Conservation Improvement Program (CIP), Renewable Development Fund (RDF), Transmission Cost Recovery (TCR), State Energy Policy (SEP), Renewable Energy Standard (RES) and Mercury Cost Recovery (MCR) charges. The Minnesota Public Utilities Commission reviews these annually.

Affordability surcharge

The electric Affordability Surcharge recovers the cost of energy assistance provided through our electric energy low-income program.

City fees

Xcel Energy collects fees or additional charges as a requirement of our franchise or other agreement with the following communities: Afton, Albertville, Baker, Bayport, Big Lake, Bloomington, Brooklyn Center, Brooklyn Park, Burnsville, Centerville, Champlin, Chisago City, Circle Pines, Clara City, Clements, Coon Rapids, Cottage Grove, Deephaven, Dilworth, Eagle Lake, Eden Prairie, Edina, Excelsior, Falcon Heights, Faribault, Forest Lake, Golden Valley, Goodview, Grant, Hayfield, Henderson, Hopkins, Inver Grove Heights, Landfall Village, Lexington, Lindstrom, Little Canada, Madison Lake, Mahtomedi, Mankato, Mantorville, Maplewood, Minneapolis, Minnetonka, Monticello, Mound, Mounds View, New Brighton, New Hope,

New Richland, Newport, North Branch, North Mankato, Oakdale, Osseo, Owatonna, Plymouth, Prior Lake, Richfield, Richmond, Robbinsdale, Rogers, Sartell, Sauk Rapids, Shakopee, Shoreview, Shorewood, South St. Paul, Spicer, Spring Lake Park, St. Cloud, St. Joseph, St. Louis Park, St. Michael, St. Paul, St. Paul Park, Stillwater, Vadnais Heights, Victoria, Watertown, Wayzata, West St. Paul, White Bear Lake, Winona and Winsted.

Decoupling adjustment

A credit or surcharge that separates revenues from changes in energy sales, removing the disincentive to promote energy conservation.

Sales tax

The charges for electric service, resource adjustment and city fees are subject to city and state sales taxes, where applicable.

Service processing, reconnection and relock charges

- \$7 charge for processing service changes
- \$50 reconnection charge to resume service after disconnection
- \$100 relock charge to resume service after unauthorized reconnection

If Xcel Energy also furnishes your gas service and you ask us to establish or reestablish both services at the same time, you pay a single charge.

Late payment charge

Past due amounts over \$10 are subject to a 1.5 percent late payment charge or \$1, whichever is greater.

Returned check charge

Xcel Energy charges \$15 for any payment by check or draft dishonored or returned by a financial institution.

Other information

Call the Xcel Energy Business Solutions Center at **800.481.4700** for complete rate schedules, terms and conditions for all electric rate services.

Monitor your account and manage your bills— electronically

The My Account site offers you many options to view and pay your energy bill. It's also a single stop for your energy management needs. Best of all, it's accessible anytime, anywhere from any device. Visit xcelenergy.com/MyAccount and register.

*For eBill enrollment, accounts with multiple premises must use synchronized billing. Gas Transport customers and customers using EDI can sign up for My Account access but the eBill option is not available.
