

Email subject line: Proposed changes to 2021 electric pricing plans

Email copy:

Important notice about your 2021 electric service and prices

At Xcel Energy, we work every day to provide the safe, clean, reliable energy that our customers depend upon, and deliver that at the lowest cost possible. We recently submitted a proposal for updated rates and new pricing plans to the Colorado Public Utilities Commission (CPUC) that, if approved, would go into effect in July 2021.

The new pricing plans offer more choices and control to manage your energy budget and align electric bills with the cost of service, so customers only pay for the costs they incur—all while keeping bills below the national average.

The plans are subject to approval by the CPUC. Details about this request - including the legal notice and potential bill impacts - are available at [xcelenergy.com](https://www.xcelenergy.com). Rates are set through a transparent process with the Commission, which includes opportunities for public input and participation. More information about the case, and how to comment, can be found at the [CPUC website](#). You can also contact us at **1.800.895.4999**.
