Department of Public Health & Environment

**CAQE Fee Scenario Outline**  
 February 3, 2021

In preparation for the next stakeholder meeting on February 10, 2021, the division has prepared a scenario for stakeholder review and discussion. This fee structure differs from previous discussions, instead basing the enterprise fees on a certain percentage of the previous year's (i.e. FY 2019-2020) APCD annual emission fee invoices, to streamline fee calculation as well as ensure that the fees are based on emissions.

**Proposal:**

There are 1880 currently active customers (companies) in the APCD database. Of those, the top 150<sup>1</sup> companies represent over 87% of annual fees, 69% of facilities, and 86% of CO, NOx, and VOC emissions. This proposal entails billing the top 150 billed companies each year based on the previous fiscal year annual emission fee invoices from APCD. Therefore, the fee would be calculated as follows:

- Year 1 Enterprise fee = APCD fee for FY 2019-20 x (\$1,000,000/Top 150 total fees for FY 2019-20)
- Year 2 Enterprise fee = APCD fee for FY 2020-21 x (\$3,000,000/Top 150 total fees for FY 2020-21)
- Year 3 Enterprise fee = APCD fee for FY 2021-22 x (\$4,000,000/Top 150 total fees for FY 2021-22)
- Year 4 Enterprise fee = APCD fee for FY 2022-23 x (\$5,000,000/Top 150 total fees for FY 2022-23)

Top 150 Invoiced Companies Invoiced for Enterprise		Enterprise Invoice Amount (Estimated <sup>2</sup> )			
Company by APCD Invoice	APCD Annual Emission Fees FY 2019-20	Year 1 FY 2020-21	Year 2 FY 2021-22	Year 3 FY 2022-23	Year 4+ FY 2023-24
1st	\$ 462,893.21	\$ 98,494.49	\$ 295,483.48	\$ 393,977.97	\$ 492,472.47
50th	\$ 17,472.71	\$ 3,717.85	\$ 11,153.54	\$ 14,871.38	\$ 18,589.23
100th	\$ 7,540.96	\$ 1,540.73	\$ 4,622.20	\$ 6,162.93	\$ 7,703.66
150th	\$ 4,158.69	\$ 884.89	\$ 2,654.66	\$ 3,539.55	\$ 4,424.43
200th	\$ 2,718.04	\$ -	\$ -	\$ -	\$ -

<sup>1</sup> Ranking is based on total APCD invoice with 1 being the highest APCD invoice of over \$492,000.

<sup>2</sup> Estimated assuming the total APCD annual emission fees remain the same as FY 2019-20 in future fiscal years.

## CAQE Fee Development

The attached spreadsheet includes these calculations using FY 2019/20 billed totals. You can also predict how the fee will change, though there is some uncertainty as to what the actual total billed amounts in future fiscal years will be.

### **Benefits:**

This scenario provides several administrative benefits to the management of the Enterprise. This scenario limits the number of invoices produced - and therefore the number of invoices on which to track and collect payment. By basing fees on the previous fiscal year, any adjustments to emissions and/or facilities have been resolved during the APCD billing cycle, eliminating adjustments to Enterprise fees.

Further, this scenario relates the enterprise fees directly to emissions, as is required by statute. This scenario includes fees for companies from all sectors, including power, O&G, construction, mining, bakeries, and other industrial operations. Fee payers will also be able to - with relative accuracy - predict the Enterprise fee and budget appropriately.

Top 150 Invoiced Companies Invoiced for Enterprise		Enterprise Invoice Amount (Estimated)				Total Number of Facilities per Company				Total Company Emissions (tpy)
