

**SOUTHWESTERN PUBLIC SERVICE COMPANY**

ORIGINAL RULE NO. 22  
CANCELLING NMPSC SHEET NO. 360

RULES AND REGULATIONS - ELECTRIC

22. UNAUTHORIZED COMMUNICATION DEVICES

Customer-owned communication devices shall not be connected directly or by inductive coupling to meter, service entrance, secondary or other Company-owned facilities in any manner.

Devices connected to customer's facilities which transmit signals beyond secondary distribution lines of Company are prohibited. Under no circumstances shall Company's primary distribution lines or transmission lines be used for transmitting signals from customer-owned devices. If it is found that unauthorized devices are being used, Company may immediately discontinue service to customer until the use of such unauthorized devices is discontinued.

Company shall not be liable for damage or interference caused by customer-owned communication devices.
