

➤ **Summary of 60-Day Notice: Business New Construction**

Public Service Company of Colorado (“the Company”) posts this 60-Day Notice to make changes to the Business New Construction products in response to the 2021 Comprehensive Evaluation.

The evaluation provided key findings in the areas of Net-to-Gross Ratios (“NTGR”) for the product as well as product influence, product policies, and relationship recommendations. The Company will implement the following recommendations in 2022:

- Use prospective NTGR of 86% for Energy Design Assistance and Energy Efficient Buildings;
- Strengthen relationships between product staff and strategic account representatives;
- Work more closely with EEB implementors to understand barriers to selecting energy-efficient equipment and provide clarifications as needed;
- Consider opportunities that allow energy modelers to use multiple energy modeling software
- Offer training on OpenStudio to participating energy modelers;
- Coordinate among relevant Company staff to define opportunities to educate customers about electrification building practices and opportunities;
- Align New Construction product with utility-wide discussions around carbon-free goals to make the operating cost of electric heating more feasible to customers;
- Offer training on electrification technologies and practices for design teams; and
- Explore additional channels to identify and engage with customers and trade partners.

Table 1: Summary of Forecasted Impacts: Business New Construction

	2022	
	<i>As Filed</i>	<i>Revised per 60-day</i>
