

➤ **Summary of 60-Day Notice: Single-family Weatherization**

The following 60-Day Notice summarizes the Company’s action to update the residential direct-install “DI” lighting offerings and incorporate self-install lightbulbs as a measure in the Single-family Weatherization product.

The Company is including with this Notice:

- Redlined Deemed Savings worksheets;
- Redlined Technical Assumptions worksheets; and
- Updated cost-benefit analyses.

A copy of this notice is available on our website at:

https://www.xcelenergy.com/company/rates_and_regulations/filings/colorado_demand-side_management

The Company is incorporating an existing measure from the Home Lighting product into the Single-family Weatherization product to capture self-installation of A-line LEDs by income-qualified customers. The Company recognizes that some hard-to-reach customers are also income-qualified and related customer outreach efforts should be tracked within the Low-Income program. Efforts to get lightbulbs to hard-to-reach customers are underway through non-profit partnerships.

Additionally, this 60-Day Notice aligns lighting measures offered through Single-family Weatherization with the changes being made within the Home Lighting & Recycling product through a concurrently issued 60-Day Notice adding a CFL replacement option and updating lifetimes of screw-in LEDs.

Table 1: Summary of Forecasted Impacts: Single-family Weatherization

	2020	
	<i>As Filed</i>	<i>Revised per 60-day</i>
Electric Savings (kWh)	1,778,524	2,061,820
Electric Demand Reduction (kW)	226	263
Budget*	\$985,420	\$978,501
MTRC Test Ratio	.71	1.11

*Rebates only. While the anticipated expenditure impacts are forecasted, the Company acknowledges that this Notice does not change the filed budget.
