

**YOU'RE  
GETTING A NEW  
ELECTRIC METER.**

Technology is advancing in every area of our lives, and Xcel Energy is bringing the world of digital technology to your electric service too. The first step? A new electric meter at your home.

In the next two months, Xcel Energy will replace your current electric meter with a new, upgraded meter. Your new meter will support improvements to the energy grid and help us to better monitor the electric system, while improving service and reliability.

This technology is part of the next generation of our energy grid—the advanced grid—and it will help us serve you better. The advanced grid will give you more of what you expect from Xcel Energy – clean, reliable energy, and new ways to save money.

We'll replace your meter at:

**Premise address**  
**City, CO**

**Premise address 2**  
**Premise address**  
**City, CO**

**Premise address 3**  
**Premise address**  
**City, CO**

In the next few weeks, you will receive more information about the meter installation process and what to expect. The meter installation will take about 10 minutes and will be at no direct cost to you.

Questions? Do you prefer to delay your meter installation to a later date? Visit **[xcelenergy.com/NewMeter](https://www.xcelenergy.com/NewMeter)**, email [inquire@xcelenergy.com](mailto:inquire@xcelenergy.com) or call our Customer Service department at 800.895.4999.
