

BEFORE THE NEW MEXICO PUBLIC REGULATION COMMISSION

**IN THE MATTER OF SOUTHWESTERN)
PUBLIC SERVICE COMPANY’S 2018)
INTEGRATED RESOURCE PLAN FOR)
NEW MEXICO.) CASE NO. 18-00215-UT
)
SOUTHWESTERN PUBLIC SERVICE)
COMPANY,)
)
 APPLICANT.)**

**SOUTHWESTERN PUBLIC SERVICE COMPANY’S
ERRATA NOTICE**

In accordance with New Mexico Public Regulation Commission (“Commission”) Rule 1.2.2.37.G(2) NMAC, Southwestern Public Service Company (“SPS”), files this Errata Notice for the purpose of correcting an error in SPS’s 2018 Integrated Resource Plan (“2018 IRP”) filed on July 16, 2018. In preparing its response to comments filed by Western Resource Advocates opposing SPS’s 2018 IRP, SPS discovered that it had failed to apply the applicable line loss factors to the forecasted business embedded savings at the customer level shown in Appendix D, Table D-9 to the 2018 IRP (*see* Appendix D, page 10 of 17). As a result, the embedded energy savings reflected in the table for the IRP planning period (i.e., 2018-2038) are overstated and should be corrected to reflect the omitted line loss adjustments. Because the 2018 IRP analysis is at the generator level and not at the customer level, this error does not change the load forecast used in SPS’s analysis or the long-term resource plan presented in the IRP.

By this notice, SPS seeks to correct Table D-9 and is attaching both a red-lined and clean version of the corrected Table D-9. The clean version of Table D-9 will replace the initial Table D-9 in the filing. SPS is serving a copy of the Errata on the Commission’s Utility Division Staff

and all parties in SPS's most recent base rate case so that the corrected table can be inserted in the original filing.

Respectfully submitted,

By: _____
