

Energy Advisors and Account Manager Contacts

Our dedicated account managers and energy advisors are here to help you serve our customers. Feel free to contact account managers for specific large C&I customer efforts and our energy advisors for small to mid-size business energy projects.

Energy Advisors in the Business Solutions Center (BSC)

Collaborating with our energy advisors will arm you with knowledge your customers can use to make energy improvements. Contact our energy advisors for ongoing support with:

- Navigating through rebate programs and services that will maximize results
- Completing rebate applications and other required documentation
- Referring customers to financial and/or other supporting resources
- Determining the most cost-saving rate structure for the business and budget
- Assigning a field representative for on-site assessment of certain types of projects
- Troubleshooting any concerns with their account

Account Managers

Our account managers serve our largest key customers on all energy matters, including energy efficiency upgrades. Contact our account managers for a variety of needs:

- Providing training and information to your commercial contacts
- Codevelop energy strategies — energy efficiencies, demand management and renewable energy
- Collaborating on customer proposals and projects (New and change service, reliability, power quality, economic development)
