Subscription Level

Select the amount of renewable energy you'd like to purchase. Start with as little as one 100 kilowatt-hour block of energy or enroll in 100% of your energy. If your electric consumption is less than the amount you choose, you'll only be charged for what you use.

Not sure how much you need? For reference, one block is enough to power all the lights in a typical home for a month. The average home uses between 7 and 10 blocks per month.
