\*All improvements must be applied for using the Whole Home Efficiency rebate application. Customers will receive the standard prescriptive rebate for all installed measures. If a customer installs three or more qualifying measures, the customer will receive an additional bonus rebate of 10% of the prescriptive rebate amount for each measure completed within the two year time period. The bonus rebate is a one-time offer for each measure. Certain restrictions and criteria do apply in order to be eligible for these rebates

\*\*To qualify for this rebate, a mixing valve must be installed at the time of equipment installation.

\*\*\*To qualify for the rebate, the device must be a certified ENERGY STAR connected thermostat and be compatible with the Company's Residential Demand Response program requirements.

Note: Local, state or federal tax credits or rebates may also be available for energy-efficient home improvements. Ask your tax advisor or visit [energystar.gov](http://energystar.gov)

SEER = Seasonal Energy Efficiency Ratio  
AFUE = Annualized Fuel Utilization Efficiency

EER = Energy Efficiency Ratio  
CFM = Cubic Feet Per Minute

HSPF = Heating Seasonal Performance Factor  
NACH = Number of Air Changes Per Minute

### Program participation costs and details

Xcel Energy does not guarantee the contractors' expertise or reputation; does not warrant any of the products or services installed; or promote the use of one contractor over another. Xcel Energy shall have no liability for contractors' work or negligence. To complete the program and be eligible for the rebates you must agree to implement three improvements. When the improvements are made within two years and verified by the inspector, you will receive any rebates earned. Participants must be Xcel Energy Colorado residential customers with combination electric and natural gas, electric only, or gas only service. Certain restrictions may apply. Participation is limited.
