Check here if applying as Higher Emissions Community (HEC)

Xcel Energy account number _____

Individual or organization name (listed on utility bill) _____

Installation address _____ City _____ State _____ ZIP _____

Contact name _____ Contact title _____

Contact email* _____

Contact phone number _____

Date submitted _____ Installation date (or anticipated installation date) _____

Brief description of fleet/workplace and project:

Brief description of charging station location:

Number of electrified parking spots _____

Number of DC fast charging ports _____ Number of Level 2 charging ports _____

Who will have access to charging? _____

List any other funding for this project (grants, incentives, state funding, etc.):

Customer signature _____ Date _____

This signature is required from an individual listed on the Xcel Energy Account above. By signing here, I acknowledge the information in this application is accurate and complete. I confirm I have read, agree with, and understand the terms and conditions of this application.

*By providing your email address, you are granting Xcel Energy permission to send further emails regarding our programs and services.

Fleet and Workplace, Income-Qualified, and High Emissions Communities Rebate Details

Public Service Company of Colorado's ("Xcel Energy") electric vehicle (EV) Fleet And Workplace Income-Qualified and Higher Emissions Communities Rebate Program ("Rebate Program") is available to qualifying Xcel Energy electric customers who purchase a program-eligible EV charger set forth on [Xcel Energy's website](#) (an "Eligible EV Charger") and install such Eligible EV Charger at the qualifying customer's site to support the charging of EV fleets (light/medium/heavy duty EV fleets) or workplace EV. Under the Rebate Program, qualifying customers may apply to receive a rebate of up to \$2,200 for each level 2 port on an Eligible EV Charger and up to \$45,000 for each Direct Current Fast Charging (DCFC) port on an Eligible EV Charger (the "Rebate") to offset all or a portion of the customer's costs to purchase the Eligible EV Charger and have such charger installed by a qualified installer. Premises Wiring and the costs associated with installing Premises Wiring is not covered by this Rebate. Costs which are eligible for the Rebate include the cost of mounting the Eligible EV Charger and connection to the Premises Wiring. Rebates will not be issued until Xcel Energy has reviewed and approved the qualifying customer's complete Rebate Program application and has received all required documentation to support the Rebate including invoices indicating the completion of the Eligible EV Charger purchase and installation. Approved Rebates will be provided in the form of checks, or other payment mechanisms approved by Xcel Energy. "Premises Wiring" means a dedicated circuit that supplies electricity directly to the installed Eligible EV Charger. This includes the protective breaker at the supply panel, wiring, final junction box, receptacle and all attachments and connections. Unless customer is participating in an Xcel Energy program which requires Xcel Energy to install the Premise Wiring, Customer is wholly responsible for the Premises Wiring, including that it meets all workmanship standards and applicable requirements in the National Electric Code, Colorado law, and local municipal codes. Customers may take advantage of Xcel Energy's Fleet and Workplace Electric Vehicle Supply Infrastructure Program in conjunction with this Rebate.

The Rebate Program and Rebates are subject to the terms and conditions contained in this application. Rebate amounts and program terms are subject to change at any time. Funding for the Rebate Program is limited and available to qualifying Xcel Energy customers on a first-come, first-served basis and is effective until funding is expended or the Rebate Program is discontinued.

Qualifying Customers

Rebates are available to any Xcel Energy customer who:

- (1) Have procured and installed an Eligible EV Charger to support EV fleets (light/medium/heavy duty EV fleets) or workplace EV charging at customer's premises;
- (2) Is a non-residential customer located within Xcel Energy's service territory;
- (3) (a) Is a non-profit organization or public organization eligible to participate in Xcel Energy non-profit efficiency programs, or (b) Has the Eligible EV Charger installed in a "Higher Emissions Community," which is a location that falls within one of the census blocks identified in the approved higher emissions map developed by Xcel Energy and filed with the Colorado Public Utilities Commission ("Commission").
- (4) Takes secondary voltage electric service from Xcel Energy at the premises where the Eligible EV Charger is installed;
- (5) Will not receive, and has not received, any other funding or rebates addressing the same costs addressed through the Rebate Program;
- (6) If the applicant is not the owner of the site at which the Eligible EV Charger is to be installed, the applicant must obtain express written consent from the property owner, in a form acceptable to Xcel Energy;
- (7) Meets all the Rebate Program Rules and Requirements set forth in these application terms.

How to apply for Rebates:

1. Fill out the Rebate Program application.
2. Email your completed Rebate Program application to EVRebates@xcelenergy.com or mail the application to:
Xcel Energy Rebate Operations
P.O. Box 829
Minneapolis, MN 55440-0829
3. Once the completed application is submitted, you may be contacted by an Xcel Energy EV Advisor or Xcel Energy's third-party validator for additional information. You will be notified of your eligibility.
4. If qualified for the Rebate, you will be required to submit documentation including but not limited to project invoices as set forth in these Rebate Program terms and conditions.
5. Rebate payments are usually made in six to eight weeks after the documentation has been processed and approved. Please see Rebate Rules and Requirements below for additional information.

Rebate Program Rules and Requirements

Unless customer is participating in an Xcel Energy program which requires Xcel Energy to install the Premises Wiring, the applicant must install Premises Wiring at the applicant's site within Xcel Energy's service territory to support the installation and use of the Eligible EV Charger, and submit documentation to Xcel Energy which demonstrates that a licensed master electrician performed the work to install the Premises Wiring.

The applicant must install an Eligible EV Charger at the applicant's site that relies on the Premises Wiring and provide Xcel Energy documentation that demonstrates that the Eligible EV Charger has been installed.

The applicant must provide Xcel Energy invoices that are dated on or after 3/1/2021, which show applicant's purchase of the Eligible EV Charger and the applicant's cost to connect the Eligible EV Charger to the Premises Wiring.

Applicant is responsible for obtaining all required permits and paying for the fees related to such permits.

A Rebate will only be provided once per Eligible EV Charger. Applications for Rebates must be completed and signed by the applicant and received by Xcel Energy or Xcel Energy's designated 3rd party with all required information as stated in this application. Unsigned or incomplete applications will be rejected and returned. Xcel Energy is not responsible for any lost, late, stolen, illegible, misdirected or postage-due mail. It is the applicant's responsibility to ensure all paperwork is postmarked by the deadline.

The applicant acknowledges that Xcel Energy may request additional information from the applicant to validate eligibility for the Rebate or confirm the accuracy of the information provided, and Xcel Energy's obligation to pay any Rebate is subject to applicant providing such additional information.

Applicant understands and agrees that Xcel Energy may inspect the installed Eligible EV Charger and the Premises Wiring before the Rebate is paid.

By submitting the application, the applicant certifies that the information provided in the application is true and correct, and the applicant understands that if any of the information provided is discovered to be false, applicant agrees to pay back any Rebate paid by Xcel Energy.

Additional Rebate Program Terms and Limitations

Rebate Program terms and the Rebate amounts are subject to change or cancellation at any time.

Xcel Energy reserves the right to refuse payment and participation if the applicant violates the Rebate Program rules, requirements, and procedures.

Any information provided in this application may be used internally by Xcel Energy for purposes other than processing the application and may be made available to the Commission, EOC, and Xcel Energy's designated third-party Rebate Program administrator. Additionally, by submitting this application to participate in the Rebate Program, the applicant consents and authorizes Xcel Energy to provide the applicant's information related to the application or the Rebate Program to third parties, including but not limited to the Colorado Energy Office and the Regional Air Quality Council, for the purpose of administering the Rebate Program, coordinating with other third parties offering EV programs and ensuring that Rebate Program participants are not receiving rebates multiple times for the same equipment and/or costs. All personal information will be handled in accordance with applicable laws, Commission rules, and Xcel Energy's then current privacy policies.

The applicant authorizes Xcel Energy to send the applicant email messages related to this application. The applicant: (i) acknowledges that he/she is the authorized user of the email address provided in the application; and (ii) grants Xcel Energy express permission to send emails related to the application to that email address until such permission is expressly revoked by the applicant.

The applicant is responsible for adhering to all laws, rules, and regulations related to the applicant's installation of the Premises Wiring and the purchase and use of the Eligible EV Charger. Prior to installation, the applicant is responsible for meeting all Rebate Program requirements and for checking with state, county or city governments and homeowner's associations (if any) regarding any applicable codes, conditions, ordinances, restrictions, and rules and regulations.

Unless the applicant is participating in an Xcel Energy program which requires Xcel Energy to install the Premises Wiring, applicant is responsible for paying all fees related to the installation, purchase and use of the Premises Wiring, as well as any charging equipment owned by the applicant (unless customer is participating in an Xcel Energy program which requires Xcel Energy to install the Premises Wiring).

The applicant is responsible for all tax liability imposed as a result of the Rebate, if any. Xcel Energy is not responsible for any taxes imposed on the applicant as a result of the Rebate, if any.

Xcel Energy does not warrant, endorse, or assume liability for the quality, performance, or safety of the applicant-selected charging equipment manufacturer, contractor and/or retailer or wholesaler. Performance of any product or services and acceptance of labor and materials used is solely the applicant's responsibility.

The applicant acknowledges that neither Xcel Energy, nor any of its affiliates and their respective employees, consultants, contractors, or agents, (a) are responsible for assuring that the installation of Premises Wiring installed by applicant or applicant contractor complies with any particular laws, codes, or industry standards, or (b) have made any representations of any kind regarding (i) the results to be achieved by the Rebate Program, (ii) any EV charging equipment or (iii) the electrician or any labor provided by the electrician, including, but not limited to, the qualifications, performance, fitness for use, or safety. Xcel Energy does not endorse any particular manufacturer of charging equipment, installer or electrician by offering these Rebates. Xcel Energy does not expressly or implicitly warrant the performance or quality of the installation services or any charging equipment purchased by the applicant. Xcel Energy is not liable for any damage caused by the operation or malfunction of the Premises Wiring or charging equipment.

Any decisions regarding the selection, design, purchase/lease, use and operation of any charging equipment, EV or installer shall be at the sole discretion and are the sole responsibility of the customer.

Unless prohibited by applicable laws, applicant agrees to release and hold harmless Xcel Energy, its affiliates and their officers, directors, shareholders, employees and contractors from and against any and all causes of action, damages, losses, claims, expenses, demands, costs (including attorneys' fees and expenses and all court, arbitration or other dispute resolution costs), or any of them, resulting from, arising out of, or in any way directly connected with this Rebate Program, applicant's receipt of the Rebate, failure to receive the Rebate, or any taxes associated therewith. Xcel Energy makes no representations or warranties regarding whether applicant will or will not qualify to receive the Rebate.
