

BUSINESS LED INSTANT REBATE

FACILITIES SAVE MORE WITH ENERGY-EFFICIENT LIGHTING

INFORMATION SHEET
COLORADO

Did you know that business facilities waste approximately 30% of the energy they pay for^{1*}? Inefficient, conventional lighting can account for over half of that annual energy waste.

By simply incorporating screw-in or pin-based LEDs into building lighting plans, you can save money and energy while helping the environment.

Get a discount with our Business LED Instant Rebate

Xcel Energy's Business LED Instant Rebate provides you with the opportunity to purchase qualifying screw-in or pin-based LEDs at a discount, directly from participating distributors. By lowering the cost difference between energy-saving LEDs and traditional standard wattage products, our instant rebate is designed to help you make the transition from using inefficient, incandescent, and halogen lamps.

By making LED lighting technology affordable to adopt, we help you save on monthly lighting costs while expanding energy conservation.

How does it work?

As a Colorado Xcel Energy commercial electric customer, you can take advantage of the Business LED Instant Rebate simply by purchasing qualifying screw-in or pin-based LED lamps. When purchasing lamps, the rebate is paid at the point of sale as a discount on your lamp invoice. There are no rebate forms to complete and no wait for rebate checks, when you purchase qualifying lamps from one of the 60+ participating distributors. Simply provide the installation address for the lamps and the supplier will apply the discount.

Save more than just energy

- Each lamp uses up to 90% less energy and can save up to \$80 in energy costs over its lifetime^{2*}.
- These lamps can last 15 times longer than traditional bulbs^{3*} — saving you replacement and maintenance costs.
- These lighting solutions emit almost no heat, reducing cooling costs that can add up throughout your facility.

BUSINESS LED INSTANT REBATE**COLORADO****Eligible products and rebates**

The following product categories qualify for Xcel Energy Business LED instant rebates. Higher rebates are available for DLC and ENERGY STAR qualified products. Rebates are 25% less for non-DLC and non-ENERGY STAR and require pre-approval from the CLEAResult program lead.

Earn a 25% bonus September 1, 2021 - December 31, 2021.

INTERIOR INSTALLED LED LAMPS	REBATE FOR DLC OR ENERGY STAR QUALIFIED PRODUCTS (25% BONUS)		REBATE FOR NON-DLC OR NON-ENERGY STAR PRODUCTS (25% BONUS)
