

# COMPRESSED AIR EFFICIENCY

INFORMATION SHEET  
COLORADO

## PARTICIPATING CONTRACTOR LIST

The Compressed Air Efficiency program offers study funding that helps you evaluate your compressed air system and identify ways to improve your operations. You may solicit bids and contract work to perform a Compressed Air Efficiency study from any of the participating contractors on this list. Please check with your account manager or call our **Business Solutions Center** at **855-839-8862** if you would like to use a vendor not included on this list.

Participating contractors have agreed to perform a Compressed Air Efficiency study as specified by our Compressed Air Efficiency program. Equipment and services must meet Xcel Energy's criteria in order to qualify for program incentives. Participating contractors are not employees or agents of Xcel Energy. This list does not constitute an endorsement of these compressed air contractors, nor does it certify or guarantee the quality of work performed, nor does it exclude potentially qualified contractors.
