

Colorado Evaporative Cooling Qualified Equipment List

The following are lists of evaporative coolers that are eligible for rebates from Xcel Energy's Evaporative Cooling Rebate Program in 2020. We will only rebate according to the current approved list for the purchase and permanent installation of new equipment (no portable coolers). These lists are subject to change.

Standard Evaporative Coolers

The standard cooler rebate is \$300. Standard coolers may be window units or roof units, must be rated 2500 CFM (cubic feet per minute) or more.

Colorado Evaporative Cooling Qualified Equipment List, Continued

Upgradeable Standard Evaporative Coolers

Some standard evaporative coolers can be upgraded to premium coolers, and qualify for a \$675 rebate. Premium cooler parts include: 1) a remote thermostat, 2) a periodic purge pump, and 3) a media saturation effective rating of 85% or higher. Please be sure receipts list all needed components; otherwise, it will be considered a standard cooler (\$300 rebate).

Manufacturer	Brand	Model * = Additional characters may be present	CFM (Cubic Feet per Minute)	Media Saturation Effective Rating	Motor needed?	Tstat needed?	Purge pump needed?	High Density (HD) pad needed?

^{^^}Need Breezair OEM #112152

Premium and Multi-Ducted Premium Coolers

Premium coolers usually have an airflow rating of 4800 - 7500 CFM. Premium coolers must also have 1) a remote thermostat, 2) a periodic purge pump, and 3) a media saturation effective rating of 85% or higher. If there is a single supply duct, the rebate is \$675. A \$1200 rebate will be given if the premium cooler has at least three supply ducts, and if at least one of those supply ducts and diffusers is new.
