

The Xcel Energy Commercial Refrigeration Efficiency program conducts training and outreach to contractors who can assist you in completing refrigeration equipment upgrades recommended during your on-site assessment.

Please work with your assigned energy advisor and forward your refrigeration assessment report to one or more of the following trade partners to obtain project bids specific to your facility. The trade partners below submitted and completed successful projects in the past year.

Please note: This list is not an endorsement of these providers, nor does it certify or guarantee their work. Refrigeration trade partners are not employees or agents of Xcel Energy. All rebate eligible projects are subject to the program rules and requirements identified on the Commercial Refrigeration Efficiency program rebate application.

Specialties Key
