

Offset the cost of Building Operator Certification training

Receive tuition reimbursement from Xcel Energy

Commercial building operators learn their trade through a combination of experience and training. Knowledge about energy efficiency and building health is essential for a facility manager's success. One of Xcel Energy's highly valued programs for building and facility managers is Building Operator Certification[®] (BOC). If you are interested in attending the BOC training, Xcel Energy is now offering partial tuition reimbursement.

Through BOC training, you can earn your certificate in 74 hours of class time and project time. By participating, you can improve job skills and knowledge as well as:

- Find new ways to save energy and money for the facilities you manage.
- Advance your career in a competitive marketplace.
- Improve comfort and air quality of your building(s) through low- and no-cost solutions.
- Add knowledge about hands-on energy-savings measures you can conduct on-site.

Earn tuition reimbursement

Demonstrating your initiative to achieve high standards in energy management is rewarded by Xcel Energy. Thoroughly understanding the mechanics of building systems helps facility and operations managers make informed decisions for energy-efficiency strategies. As an incentive to attend BOC training, we are offering partial tuition reimbursement of \$500 when you complete the training.

To earn your tuition reimbursement, keep in mind:

- Only one building operator is eligible for the reimbursement per building.
- Incentives are a \$500 flat fee regardless if the building is electric only, gas only or combo.
- Building operators are required to operate a building of over 50,000 square feet to qualify for the reimbursement.

Ready to get started?

1. Learn more about and register for the BOC training at <http://boccentral.org>. Click on your state to find course location(s), cost and link to register online.
2. Once you have received your certificate of completion you will find our online rebate application at xcelenergy.com/Recomm and submit along with your certificate to Xcel Energy. Once approved, your reimbursement check of \$500 will be mailed to you.

Is BOC training for you?

BOC is for building operators with two or more years' experience in building operation and maintenance, who are seeking a broader knowledge of whole- building systems.

Past participants have included:

- Building engineers
- Stationary engineers
- Maintenance
- Supervisors
- Facility coordinators
- HVAC technicians
- Electricians
- Operations supervisors
- Operations techs
