

# EFFICIENCY CONTROLS SERVICE PROVIDERS

INFORMATION SHEET  
MINNESOTA

Building-system controls can help your equipment operate more efficiently and save you money. Take advantage of our rebates to offset your costs for a new controls system or an addition to your existing system. To get started, contact one of the providers below that have recently completed a project through our Efficiency Controls program.

**Please note:** This list does not constitute endorsement of these providers, nor does it certify or guarantee their work. These service providers are not employees or agents of Xcel Energy. All Efficiency Control projects require preapproval. Equipment and services recommended in an Efficiency Controls plan must meet our criteria to qualify for program incentives.

## **75F LLC**

221 River Ridge Cir. S  
Burnsville, MN 55337  
888.590.8995  
websitecontact@75f.io
