

Compressed Air Prescriptive Program Rebate Application

Customer information

Xcel Energy premises numbers: Electric _____ and/or gas _____

Company name _____ Date submitted _____

Installation address _____ City _____ State _____ ZIP _____

Mailing address _____ City _____ State _____ ZIP _____

Contact name (print) _____ Phone _____

Contact email* _____ Fax _____

Equipment location description (required) _____

The total project cost: \$ _____

Customer signature _____ **Date** _____

This signature is required from the individual tied to the Xcel Energy premises number herein. By signing here, I acknowledge the information in this application is accurate and complete. I confirm I have read, agree with and understand the terms and conditions on page 2 of this application. I also authorize Xcel Energy to provide a copy of the project preapproval notification to the equipment supplier or vendor so as to expedite the project process.

Alternative rebate recipient

Complete this section only if the customer wants the rebate check to go to someone other than the customer contact tied to the premises number above.

Company name _____

Contact name _____ Phone _____

Address _____ City _____ State _____ ZIP _____

I authorize the above company to receive the rebate check for this project.

Customer signature _____ Date _____

Xcel Energy account representative name _____

Signature _____

Trade partner information (vendor/contractor information)

Company name _____ Trade partner ID# _____

Contact name (print) _____

Address _____ City _____ State _____ ZIP _____

Contact email* _____ Phone _____

*By providing your email address, you are granting Xcel Energy permission to send updates or questions via email regarding this project as well as future emails regarding our programs and services.

Qualifying customers

Xcel Energy prescriptive rebate programs are available to Xcel Energy business electric and/or gas customers that install qualifying equipment in Xcel Energy's Minnesota service territory.

How to apply for rebates

1. Fill out the rebate application (for each installation address).
2. Attach a copy of the paid, itemized invoice(s). Be sure that the quantity, make, model number and unit price of each item appears on the invoice.
3. Make a copy of this document for your records.
4. If you have questions please contact your Xcel Energy account manager or one of our energy efficiency specialists to discuss and/or complete the project application form.
5. You can email your completed project paperwork to: energyefficiency@xcelenergy.com, fax to: 800-311-0050, or mail to: Energy Efficiency Specialist, Business Solutions Center, P.O. Box 8, Eau Claire, WI 54702-0008.
6. Once completed paperwork is submitted, rebate payments are usually made in six to eight weeks after the rebate application has been processed.

Custom Efficiency rebate program

Equipment that is not eligible for prescriptive rebates can be submitted through the Custom Efficiency program. **Submittal of the Customized Solutions application is required prior to equipment order, purchase, or installation.** The Custom Efficiency rebate application and program details can be found at xcelenergy.com/CustomEfficiency.

Rules and requirements

- All equipment must be new. **Used or rebuilt equipment is not eligible for a rebate.**
- Equipment must meet program specification requirements and be purchased, installed and operating prior to submitting an application for a rebate. Xcel Energy reserves the right to withhold payment for products that do not meet the requirements.
- Rebates cannot exceed 60 percent of the project cost (including equipment and labor).
- A signed application and detailed installation invoice(s) must be completed and submitted to Xcel Energy within 12 months (24 months for motors, VFDs and constant speed motor projects) of the invoice date.
- Xcel Energy is not responsible for any lost, late, stolen, ineligible, illegible, misdirected or postage-due mail.
- All completed submissions become the property of Xcel Energy upon receipt and will not be returned.

- Xcel Energy will issue a rebate in the form of a check.
- Xcel Energy reserves the right to conduct a random on-site inspection of your project before or after issuing a rebate. The customer agrees to provide reasonable access to inspect the installation. On-site inspections may be performed up to one year after the date the rebate check is issued. If Xcel Energy finds that the application does not comply with Xcel Energy rules and qualifications, any rebate amount may be adjusted, denied or subject to return.
- Program rules, requirements and offer are subject to changes at any time. Xcel Energy's prescriptive rebate programs are subject to 60 days notice of cancellation. Changes or notifications will be posted at xcelenergy.com/Rebates. The customer and trade partner are responsible for contacting an energy efficiency specialist to determine whether the program is still in effect and to verify program parameters. Call 855.839.8862 or email energyefficiency@xcelenergy.com.
- Xcel Energy reserves the right to refuse payment and participation if the customer or contractor violates program rules and procedures, or local, state or federal regulations. Xcel Energy is not liable for rebates promised to customers as a result of misrepresentation of the program.
- Xcel Energy's acceptance of the application does not guarantee payment of rebate.
- Xcel Energy retains the right to limit rebates or to make adjustments to correct incentive calculations if necessary. Energy savings calculations are estimates and may vary from actual results.

Warranty information

- Xcel Energy does not endorse any particular manufacturer, product or system design by offering these rebates.
- Xcel Energy will not be responsible for any tax liability imposed on the customer as a result of the payment of rebates; does not expressly or implicitly warrant the performance of installed equipment (contact your contractor for detailed equipment warranties).
- Xcel Energy is not responsible for the proper disposal/recycling of any waste generated as a result of this project; is not liable for any damage caused by the operation or malfunction of the installed equipment; and does not guarantee that a specific level of energy or cost savings will result from the implementation of energy conservation measures or the use of products funded under these programs.

Qualifying equipment and offer

No loss drains

- The following are not eligible: Manual drains, level operated mechanical traps (float or inverted bucket), electronic operated solenoid valves.
- Rebates for no loss air drains are \$200/drain.

New – VSD compressors

- Compressors must have a factory integrated variable speed drive to qualify for a prescriptive rebate.
- Specific compressors are 10, 15, 20, 25, 30, 40, 50, 75, 100 and 125 horsepower. Compressors outside this threshold will round down to the next lowest level e.g., a 27 horsepower will receive rebate at the 25 horsepower level (\$3,750).
- Horsepower is based on the compressor drive motor's nameplate without considering the operating service factor or brake horsepower.
- If the drive motor is rated in kW, please calculate the rebate using the formula: horsepower = kW/0.746, rounded to whole number. Therefore, a 20 kW compressor/0.746 = 26.81, rounds to 27 horsepower.
- Note: 37 kW/0.746 = 49.6, rounds to 50 horsepower which must apply under Custom Efficiency.
- The existing or proposed, operating compressed air system must be less than 149 horsepower.
- Equipment must not be used as backup.
- Rebates for VSD Compressors are \$150/horsepower.

Mist eliminators

- The rated pressure drop over the lifetime of the element should be 1 psig or less.
- Equipment must not be used as backup.
- Rebates are \$2.00 per rated SCFM for mist eliminators that are 125 SCFM to 5999 SCFM.

Cycling dryers

- Cycling refrigerated dryers or variable speed refrigerated dryers 75 SCFM–2799 SCFM are eligible.
- Non-cycling refrigerated are not eligible.
- Equipment must not be used as backup.
- Rebates for cycling dryers are \$3 per rated SCFM.

Heatless Desiccant Dryer w/ Demand Controls

- Dryer purge demand controls on 90 SCFM–2499 SCFM heatless desiccant dryers are eligible.
- Dryer must have sensor(s) that monitor dryer loading and control purge air to match demand.
- Equipment must not be used as backup.
- Rebates for dew point demand controls are \$1,500 + \$1/SCFM.

Heated Desiccant & Heated Blower Purge Desiccant Dryers w/ demand controls

- \$1,500.00 + \$4.00/CFM
- Dryer purge demand controls on 90 SCFM–2499 SCFM heated desiccant & heated blower purge desiccant dryers are eligible.
- Equipment must not be used as backup.
- Dryer must have sensor(s) that monitor dryer loading and control purge air to match demand

Pressure/Flow Controller

- \$10.00/System Operating HP
- For a precision pressure regulator (master-slave control type) installed on main system header or a system flow controller
- Operating HP is defined as air compressor rated hp in operation at a given time
- Eligible for system's w/ Operating HP of 10 HP or greater & less than 500 HP

Compressed Air Storage Tank

- \$1.00/Gallon Added
- For systems with fixed speed rotary screw compressors using load/no load control only (system's w/ VFD trim not eligible)
- Operating HP is defined as air compressor rated hp in operation at a given time
- Eligible for system's w/ Operating HP of 10 HP or greater & less than 300 HP
- Maximum added storage of 30 Gallons per Operating HP

Compressed Air Leak Fix

- \$50.00/Leak Fix
- Conduct an Ultra-sonic leak detection survey of the compressed air system with leak location and SCFM size documented.
- Eligible for compressed air system's operating between 80 & 150 psig
- Confirmation that each leak being claimed/rebated is fixed.
- Labor/materials of leak fixes documented (study costs are not eligible).

High Frequency Forklift Battery Charger

- \$250.00/Charger
- Battery chargers must be used for charging electric-powered forklifts that operate for at least 1 shift per day to be eligible.
- Ferroresonant & SCR are not eligible.
- 3-phase power and high frequency type requirement

Lithium-Ion Battery Forklift

- \$4,000.00/Forklift
- Lead-Acid battery forklifts are not eligible.
- Other electric forklifts with different battery types than lithium-ion are not eligible

No loss air drains				
Number of units	Manufacturer	Model number	Rebate	Total rebate
			\$200/each	
			\$200/each	
			\$200/each
