

2021 MINNESOTA LIGHTING EFFICIENCY PROGRAM REBATE CHANGES

As part of our triennial filing, we have proposed the following changes to our Minnesota Lighting Efficiency program which will go into effect on January 1, 2021.

Please keep in mind that the 2020 rebate levels will be applied to submitted projects which have equipment invoices dated on or prior to December 31, 2020. For projects with equipment invoices dated on or after January 1, 2021, the new 2021 program changes and rebate levels will apply. Additionally, rebate applications need to be submitted no later than one year from the equipment invoice date.

Rebate levels that are changing in 2021 are marked in red in the tables below.

LED high-bay fixtures – retrofit rebate level changes

LED high-bay fixtures replacing existing HID's	Rebates for DLC-qualified equipment* (per fixture)	
	2020 Rebate	2021 Rebate
75-94 W	\$50	\$50
95-189 W	\$135	\$90
190-290 W	\$150	\$100
291-464 W	\$200	\$200
465-625 W	\$250	\$250

LED high-bay fixtures replacing existing fluorescents	Rebates for DLC-qualified equipment* (per fixture)	
	2020 Rebate	2021 Rebate
75-94 W	\$50	\$50
95-189 W	\$135	\$90
190-290 W	\$150	\$100
291-464 W	\$200	\$130
465-625 W	\$250	\$165

LED High-bay retrofit kits replacing existing HID's and fluorescents	Rebates for DLC-qualified equipment* (per fixture)	
	2020 Rebate	2021 Rebate
75-94 W	\$50	\$30
95-189 W	\$40	\$30
190-290 W	\$50	\$40
291-464 W	\$80	\$50
465-625 W	\$160	\$105

LED Parking garage fixtures – more options for retrofit rebates

In our 2020 program offering, rebates for qualifying LED parking garage fixtures are only available when they're installed to replace existing HID fixtures. **In 2021, rebates will be available for LED parking garage fixtures when they are installed to replace existing fluorescent fixtures as well.**

LED Traffic signal retrofit rebates – discontinued

LED traffic signal retrofit rebates will be discontinued Dec. 31, 2020. If you have an upgrade project planned, purchase the equipment prior to Dec. 31, 2020 and install the equipment and submit the rebate prior to Dec. 31, 2021. Download the [Traffic Signal Retrofit rebate application](#).

**Questions?**

Please contact your account manager or reach out to our team of energy advisors at **855.839.8862** with any questions. To download our current 2020 Lighting Efficiency Retrofit rebate application and view qualifying details, visit xcelenergy.com/LightingEfficiency. The 2021 Lighting Efficiency Retrofit rebate application will be available after the end of 2020.

*To qualify for a rebate, LED products must either be found on or comparable to the DesignLights Consortium's (DLC) Qualified Product and/or ENERGY STAR lists. The DLC QPL is available at designlights.org/QPL. The DLC establishes specifications for high-efficiency, high-quality commercial lighting solutions and maintains listings of qualified products.

Rebate levels for non-DLC qualified LED high-bay fixtures, LED high-bay fixture retrofit kits and LED parking garage fixtures are available at 25% less than the rebate levels listed for DLC-qualified equipment.
