# Lighting Efficiency Lighting Retrofit Rebate Application

For a free lighting assessment and information about free LEDs, please call **575-208-7405**.

Opportunity ID \_\_\_\_\_

## Business customer information

Company name \_\_\_\_\_ Date submitted \_\_\_\_\_

Installation address \_\_\_\_\_ City \_\_\_\_\_ State \_\_\_\_\_ ZIP \_\_\_\_\_

Mailing address (if different) \_\_\_\_\_ City \_\_\_\_\_ State \_\_\_\_\_ ZIP \_\_\_\_\_

Contact name \_\_\_\_\_ Phone \_\_\_\_\_ Email \_\_\_\_\_

Check this box if you do not want to receive emails from Xcel Energy regarding our programs and services.

Xcel Energy electric premises number \_\_\_\_\_

I verify the information on this application is correct and request consideration for participation in this program.

Customer signature \_\_\_\_\_ Date \_\_\_\_\_

**Customer hereby certifies that: 1. the customer, and not Xcel Energy is solely responsible for the accuracy of the information contained in this application; 2. all installation is complete and operational prior to submitting rebate; and 3. all rules of this Xcel Energy program have been followed. Further, the customer acknowledges that participation in this rebate program shall impose no liability on Xcel Energy. In particular, Xcel Energy shall not be liable for the work performed by the customer's engineer, contractor or vendor.**

Xcel Energy account manager \_\_\_\_\_ Date \_\_\_\_\_ Email \_\_\_\_\_ @xcelenergy.com

## Alternate rebate recipient

Note: Complete this section only if the customer wants the rebate check to go to someone other than the company tied to the account number.

Company name \_\_\_\_\_

Contact name \_\_\_\_\_ Phone \_\_\_\_\_

Address \_\_\_\_\_ City \_\_\_\_\_ State \_\_\_\_\_ ZIP \_\_\_\_\_

I authorize the above company to receive the rebate check for this project.

Customer signature \_\_\_\_\_ Date \_\_\_\_\_

## Contractor information

Company name \_\_\_\_\_ Trade Partner ID# \_\_\_\_\_

Contact name \_\_\_\_\_

Address \_\_\_\_\_ City \_\_\_\_\_ State \_\_\_\_\_ ZIP \_\_\_\_\_

Contact email\* \_\_\_\_\_ Phone \_\_\_\_\_

\* By providing your e-mail address, you are granting Xcel Energy permission to send further e-mails regarding our programs and services.

Check this box if you want to receive emails from Xcel Energy regarding our programs and services.

## Facility characteristics

Is the space air conditioned where the energy-efficient lighting will be installed?  Air conditioned  Heat only  No air conditioning or heat

Please indicate the primary use for this location:

- Office  Big box retail/grocery  Healthcare office/out-patient  Manufacturing
- Restaurant  Elementary/secondary school  Hospital  Warehouse
- Retail  College/university  Hotel/motel  Nighttime exterior (LED canopy/soffit lights only)
- Other/misc. \_\_\_\_\_

Does your facility have a garage?  Yes  No

Does the lighting in this facility operate 24 hours a day?  Yes  No

## New payment options

Rebate payment option (if no option is chosen, the rebate will default to a check)

Check (rebate check will be mailed)  Bill credit (rebate will be applied as a credit to the Xcel Energy account)

Direct deposit (ACH Payments are available to customers with Auto Pay enrolled in My Account)

## LED rebate worksheet

## Interior installations

Prescriptive rebates are available for the interior and specified exterior equipment listed below. Rebates are based on total fixture wattage. If the fixture is within+ or -10% of the rebate wattage category, the fixture can qualify for a prescriptive rebate. If not, then it could be eligible for a custom rebate. If the project does not fit one of the descriptions below, it may still qualify for rebates. Xcel Energy offers a tiered rebate level for products that are either Designlights Consortium (DLC) Qualified Product Lists (OPL) or ENERGY STAR®-qualified and products that are comparable but not DLC or ENERGY STAR listed. Xcel Energy has added prescriptive rebates for LED lighting fixtures and lamps that are not DLC or ENERGY STAR qualified. The rebate amounts for these products will be equal to 75% of the rebate amount that we offer for comparable LED products that are DLC- or ENERGY STAR qualified.\* Refer to the LED Rebate Guide to see which DLC eligible products are within each category. Please contact an Xcel Energy account manager or call our Business Solutions Center at 855-839-8862 for custom lighting project review prior to beginning the project.

New Equipment	Existing Equipment Specifications	Non-ENERGY STAR* rebate/unit	ENERGY STAR rebate/unit	Qty. =	Rebate
<b>LED downlight fixtures</b>					
Rebates are based on one-for-one new full fixture replacements with commercial LED hardwired and screw-in downlight luminaires. Non-ENERGY STAR products must meet the ENERGY STAR product eligibility category definition, certified <b>"Downlight" (recessed, surface mount or pendant)</b> , to qualify for the prescriptive rebate. Rebates are based on total fixture wattage..					
8W–25W	Incandescent and HID systems	\$15/fixture	\$20/fixture		
26W–50W		\$26.25/fixture	\$35/fixture		
10W–25W	Fluorescent systems	\$11.25/fixture	\$15/fixture		
26W–50W		\$20/fixture	\$25/fixture		

<b>LED downlight retrofit kit</b>					
Replace incandescent systems with a commercial LED downlight luminaire. Non-ENERGY STAR products and must meet the ENERGY STAR product eligibility category definition, <b>"LED retrofit kit for downlights"</b> .					
25W or less	Incandescent systems	\$7.50/fixture	\$10/fixture		

New Equipment	Existing Equipment Specifications	Non-DLC* rebate/unit	DLC rebate/unit	Qty. =	Rebate
<b>LED and LEC exit signs</b>					
Rebates are based on replacement of incandescent exit signs to LED or LEC exit signs. LED exit signs do not need to follow the DLC requirement (until further notice).					
LED and LEC exit signs	Incandescent exit signs	\$25/fixture			

<b>LED high/low bay fixtures</b>						
Rebates are based on one-for-one replacement of HID high/low/aisle bay fixtures with new LED high/low-aisle bay fixtures and retrofit kits. Non-DLC products and must meet the DLC product eligibility category definition, <b>"High-Bay Luminaires/High-Bay Aisle Luminaires/Low-Bay Luminaires for Commercial and Industrial Buildings, Retrofit Kits High-Bay Luminaires/High-Bay Aisle Luminaires/Low-Bay Luminaires for Commercial and Industrial Buildings"</b> to qualify for the prescriptive rebate. Rebates are based on total new fixture wattage. If wattage is in question, please reference the DLC listed wattage. Strip, wrap, or fixtures classified as linear ambient, do not qualify for this rebate but can be evaluated through Custom.						
				For invoices dated on or after April 1, 2020		
High/low bay fixtures	75W–94W	HID fixture or Fluorescent T12, T8, T5 fixtures	\$56.25/fixture	\$75/fixture		
	95W–189W		\$101.25/fixture	\$135/fixture		
	190W–290W		\$112.50/fixture	\$150/fixture		
	291W–464W		\$150/fixture	\$200/fixture		
	465W–625W		\$187.50/fixture	\$250/fixture		

<b>LED linear replacement lamps</b>					
Rebates are based on one-for-one replacement of fluorescent T8 or T12 lamps with new LED linear replacements lamps. Non-DLC products and must meet the DLC product eligibility category definition <b>"Replacement Lamps (plug and play) (UL Type A)"</b> and <b>"External - driver lamp-style retrofit kits (UL Type C)"</b> . Replacement lamps listed on the DLC OPL as "Dual Mode Internal Driver lamps (UL Type A/8) are also allowed and will be rebated as UL Type A. LED linear replacement lamps installed in new construction must also be submitted through the Custom Efficiency program. <b>See DLC replacement lamps page for more detail on testing requirements.</b> Rebates are based on total new lamp wattage.					
LED linear tube – UL Type A 4 foot	Fluorescent T12, T8, T5 fixtures	\$1.50/lamp	\$2/lamp		
LED linear tube – UL Type B 4 foot		\$2.25/lamp	\$3/lamp		
LED linear tube – UL Type C 4 foot		\$3.75/lamp	\$5/lamp		

## Interior installations (continued)

New Equipment		Existing Equipment Specifications	Non-DLC* rebate/unit	DLC rebate/unit	Qty. =	Rebate
<b>LED mogul screw-base replacements for HID lamps</b>						
Rebates are based on one-for-one replacement of interior HID mogul-based screw-in lamps with new LED mogul screw base lamps. Non-DLC products and must meet the DLC product eligibility category definition: <b>"mogul screw-base replacements for HID lamps for high/low-bay luminaires (internal driver/UL type B)"</b> . UL type C lamps do not qualify for prescriptive rebate but can be considered in the Custom Efficiency program. Rebates are based on total new lamp wattage.						
			For invoices dated on or after April 1, 2020			
LED mogul screw-base type B lamps	30W–39W	HID lamps	\$7.50/lamp	\$10/lamp		
	40W–49W		\$11.25/lamp	\$15/lamp		
	50W–79W		\$15/lamp	\$20/lamp		
	80W–119W		\$18.75/lamp	\$25/lamp		
	120W–144W		\$22.50/lamp	\$30/lamp		
	145W–230W		\$26.50/lamp	\$35/lamp		
<b>LED refrigerated case lighting 5- and 6-foot doors</b>						
Rebates are based on replacement of T12 or T8 linear 5- to 6-foot fluorescent refrigerated case door lighting with new 5- to 6-foot LED refrigerated case door strip lighting. Non-DLC products and must meet the DLC product eligibility category definition <b>"Vertical Refrigerated Case Luminaires."</b> Category covers only complete luminaires, with all necessary components. Rebates are per door, not per lamp. Linear LED tube lights do not qualify for this rebate, but can be considered under the Custom Efficiency program.						
5- and 6-foot doors <input type="checkbox"/> Cooler case <input type="checkbox"/> Freezer case		Fluorescent T8 or T12 systems with LED case lighting	\$37.50/door	\$50/door		
<b>LED replacement lamps for pin-based CFL lamps</b>						
Rebates are based on one-for-one replacement of CFL 2 or 4 pin lamps. Non-DLC products and must meet the DLC product eligibility category definition, <b>"LED Replacement for Pin-Based CFL Lamps (UL Type A)"</b> or <b>Lighting Design Lab QPL</b> . UL Type B pin-based lamps do not qualify for prescriptive rebate but can be considered in the custom efficiency program.						
LED 2-pin or 4-pin lamps, 5W–21W		CFL 2 or 4 pin lamps	\$5.25/lamp	\$7/lamp		
<b>LED screw-in lamps</b>						
Replace incandescent lamps with LED lamps. Non-ENERGY STAR products and must meet the ENERGY STAR product eligibility category definition, <b>LED screw-in and pin-based lamps</b> .						
			For invoices dated on or after April 1, 2020			
1W–5W	Incandescent systems		\$2.25/lamp	\$3/lamp		
6W–10W			\$5.25/lamp	\$7/lamp		
11W–20W			\$7.25/lamp	\$10/lamp		
<b>Stairwell fixtures</b>						
Rebates are based on replacement of a T12, T8, T5, HID, or CFL with a 20W-60W LED stairwell fixture. Customers can receive separate rebates for the controls portion of the fixture through the new standalone controls rebates. Non-DLC products must meet the DLC product eligibility category definition, <b>"stairwell/passageway luminaires"</b> .						
			For invoices dated on or before March 31, 2020			
Bi-level stairwell fixture with integrated sensor		Replace a 2-lamp T8 fixture with a 2–3 lamp T8 fixture or a 20W–30W LED fixture with an integrated occupancy sensor or step-dimming ballast.	\$56.25/fixture	\$75/fixture		
			For invoices dated on or after April 1, 2020			
Stairwell fixture			\$30/fixture	\$40/fixture		
<b>LED troffer fixtures</b>						
Rebates are based on one-for-one replacement of fluorescent T12 or T8 fixtures with new LED troffer fixtures or retrofit kits. Non-DLC products and must meet the DLC product eligibility category definition, <b>"1x4, 2x2, and 2x4 Luminaires for Ambient Lighting of Interior Commercial Spaces"</b> and <b>"integrated-style retrofit kits for 1x4, 2x2 and 2x4 luminaires for ambient lighting of interior commercial spaces"</b> . Linear ambient (or "strip") fixtures are not eligible in this category and should be submitted through the Custom Efficiency program. Rebates are based on total new fixture wattage.						
LED troffer fixtures	2X4, 30W–90W	Fluorescent T2, T8, T5 fixtures	\$22.50/fixture	\$30/fixture		
	2X2, 23W–42W					
	1X4, 19W–65W					
Retrofit kit for LED troffer fixtures	2X4, 32W–67W					
	2X2, 22W–40W					
	1X4, 19W–34W					

## Interior installations (continued)

New Equipment	Existing Equipment Specifications	Non-DLC* rebate/unit	DLC rebate/unit	Qty. =	Rebate
<b>LED linear ambient fixtures and retrofit kit</b>					
Rebates are based on replacement of T8, T12 and T5 fluorescent ambient fixtures with new LED direct Linear Ambient fixtures and retrofit kits. Non-DLC products must meet the DLC product eligibility category definition. <b>Direct Linear Ambient fixtures and Retrofit Kits for Direct linear Ambient Luminaires</b> , to qualify for the prescriptive rebate. Rebates are based on total fixture wattage. <b>Rebates for direct linear ambient kits are available for invoices dated on or after April 1, 2022.</b>					
					For invoices dated on or after April 1, 2020
LED direct linear ambient	10W–35W	T8, T12 and T5 linear ambient fixture	\$15/fixture	\$15/fixture	
	36W–80W		\$18.75/fixture	\$25/fixture	
	81W–10W		\$28.50/fixture	\$38/fixture	
					For invoices dated on or after April 1, 2022
Retrofit kit for LED direct linear ambient fixtures	10W–35W	T8, T12 and T5 linear ambient fixture	\$11.25/fixture	\$15/fixture	
	36W–60W		\$15/fixture	\$20/fixture	
	61W–100W		\$22.50/fixture	\$30/fixture	

## Exterior installations

New Equipment	Existing Equipment Specifications	Non-DLC* rebate/unit	DLC rebate/unit	Qty. =	Rebate
<b>LED area lighting fixtures</b>					
Rebates are based on one-for-one replacement of HID fixtures with new LED fixtures rated for exterior use. Non-DLC products and must meet the DLC product eligibility category definition, <b>"Outdoor Pole/Arm-Mounted Area and Roadway Luminaire"</b> or <b>"Bollard"</b> . Rebates are based on total new fixture wattage.					
Outdoor area lighting 45W–65W	HID fixture	\$93.75/fixture	\$125/fixture		
Outdoor area lighting 66W–89W		\$93.75/fixture	\$125/fixture		
Outdoor area lighting 90W–119W		\$112.50/fixture	\$150/fixture		
Outdoor area lighting 120W–140W		\$131.25/fixture	\$175/fixture		
Outdoor area lighting 141W–199W		\$150/fixture	\$200/fixture		
Outdoor area lighting 200W–550W		\$187.50/fixture	\$250/fixture		
<b>LED canopy fixtures</b>					
Rebates are based on one-for-one replacement of HID canopy or soffit fixtures with new LED fixtures rated for exterior use. Non-DLC products and must meet the DLC product eligibility category definition, <b>"Fuel Pump Canopy Luminaires"</b> . Equipment must be hard-wired and is not limited to gas stations installations. Rebates are based on total new fixture wattage.					
					For invoices dated on or after April 1, 2020
25W–60W	Replace HID systems with LED systems rated for exterior use. Equipment must be hardwired and rated for exterior use.	\$37.50/fixture	\$50/fixture		
61W–150W		\$52.50/fixture	\$70/fixture		
<b>LED parking garage fixtures</b>					
Rebates are based on one-for-one replacement of HID parking garage fixtures with new LED parking garage fixtures rated for exterior use. Non-DLC products and must meet the DLC product eligibility category definition, <b>"Parking Garage Luminaires"</b> . Eligible parking garage structures need to be either underground or semi-enclosed above ground. <b>The lighting within the garage must operate 24 hours a day.</b>					
25W–60W	HID fixtures	\$101.25/fixture	\$135/fixture		
61W–83W		\$112.50/fixture	\$150/fixture		
<b>LED wall pack fixtures – Exterior and parking garage installations</b>					
Rebates are based on one-for-one replacement of HID wall packs with new LED fixtures hardwired and rated for exterior use. Rebates are based on total new fixture wattage. Equipment must be hardwired and rated for exterior use. Non-DLC products and must meet the DLC product eligibility category definition, <b>"Outdoor Wall-Mounted Area Luminaires"</b> .					
Building exterior	10W–25W	HID* systems	\$26.25/fixture	\$35/fixture	
	26W–60W		\$56.25/fixture	\$75/fixture	
	61W–150W		\$75/fixture	\$100/fixture	
Parking garage	10W–25W		\$26.25/fixture	\$35/fixture	
	26W–60W		\$56.25/fixture	\$75/fixture	
	61W–150W		\$75/fixture	\$100/fixture	

Subtotal for LED rebates

### Standalone and networked lighting controls

Lighting control rebates are available for LED interior retrofit and parking garage retrofit fixtures. Rebates pertain to any new LED fixture that is rebated through the program. Control rebates are in addition to fixture rebates.

New Equipment	Specifications	Rebate/watt	Qty. watts connected=	Rebate
<b>Standalone Lighting Controls</b>				
Rebates are based on the amount of watts controlled by the sensor. The occupancy and/or photocell controls must be permanently mounted to a wall, ceiling or integrally into the fixture. To earn a standalone lighting control rebate, the fixture cannot exceed 35% of full wattage during unoccupied periods. The low mode setting should be chosen so that the surface illumination levels are code compliant. Standalone controls must function independently, not as part of a Networked Lighting Control system.				
		For invoices dated on or after April 1, 2020		
Occupancy sensor	Adjusts light levels according to the presence of occupants	\$0.05/watt		
Daylighting (photocell) sensor	Adjusts light levels automatically in response to the presence of natural light	\$0.10/watt		
Occupancy and daylighting (photocell) sensor	Performs functions of both	\$0.15/watt		

**Networked Lighting Controls**  
Rebates are based on the amount of watts controlled by the system. Rebates are available for networked lighting control equipment that meet the following system requirements: **(1) Design Lights Consortium (DLC) Qualified:** Control equipment must be on the DLC Qualified Product List (QPL) [designlights.org/lighting-controls/download-theqpl/](https://designlights.org/lighting-controls/download-theqpl/); **(2) High End Trim:** Required, 80% or lower; **(3) Daylighting:** Must be deployed where side and top lighting is available as defined in IECC 2015, <https://codes.iccsafe.org/public/document/IECC2015/chapter-4-ce-commercial-energy-efficiency>; **(4) Occupancy sensing:** Controls configured in occupancy or vacancy mode with timeout set to 20 minutes or less. **(5) commissioning:** Project has been commissioned to comply with the above requirements 1-4. Networked lighting control systems with additional capabilities may be eligible for increased rebates through the Advanced Lighting Controls Custom offering. **(6) Controlled fixtures must be LED,** either retrofit in conjunction with the controls installation or installed within the past 5 years. Spec sheets and invoices for connected LED fixtures must be provided to verify the controlled wattage.

		For invoices dated on or after April 1, 2020		
Networked Lighting Control (NLC)		\$0.40/watt		

\*I certify the six (6) networked lighting controls requirements listed above are met, the system has been commissioned, and working as designed.

**Commissioning Agent Information (commissioning agent is the programmer of the NLC system)**

## How to apply

### 1. Rebate details

Complete the rebate application. All information needs to be supplied before a rebate check can be issued.

### 2. Itemized invoice

Include detailed installation invoice that includes:

- Invoice number and date
- Customer premises number or installation address
- Manufacturer names and model numbers for installed equipment
- Equipment quantities
- Equipment cost per unit
- Labor cost listed separately from equipment costs. If equipment was self-installed, please include a labor cost based on the install time and rate of pay of the installer.

### 3. Specifications (if applicable)

Xcel Energy offers a tiered rebate level for products that are either ENERGY STAR or DesignLights Consortium (DLC) Qualified Product Lists (QPL) qualified and products that are comparable but not DLC or ENERGY STAR listed. Because LED products have become more prevalent and the overall quality has improved, Xcel Energy has added prescriptive rebates for LED lighting fixtures and lamps that are not DLC or ENERGY STAR qualified. The rebate amounts for these products will be equal to 75% of the rebate amount that we offer for comparable LED products that are DLC- or ENERGY STAR qualified. You must include a screenshot of the product's listing on the applicable website showing details.

#### ENERGY STAR and DesignLights Consortium Qualified Product Lists

The DLC promotes quality, performance and energy-efficient commercial sector lighting solutions through collaboration among its federal, regional, state, utility, and energy efficiency program members; luminaire manufacturers; lighting designers and other industry stakeholders throughout the U.S. **For the technical requirements to be listed on the DLC QPL, please visit this website:** <https://www.designlights.org>.

ENERGY STAR promotes energy savings, highest quality of products, reduced maintenance costs, cooling costs, and guaranteed minimum three-year warranty. Visit [energystar.gov/products](http://energystar.gov/products) to search for qualified commercial products.

Please submit forms here:

## Rules and requirements

Xcel Energy provides energy efficiency rebates for the purchase and installation of qualifying interior lighting equipment (and select exterior canopy and soffit fixtures) in your existing building. Additional lighting rebates, not listed on this application, may be available through our Custom Efficiency program which requires preapproval prior to project initiation and purchase of equipment. Please contact your Xcel Energy account manager or call our Business Solutions Center at 855-839-8862 for custom lighting project review prior to beginning the project.

### Customer qualifications

This program applies to customers with a valid Xcel Energy commercial account in our New Mexico electric service territory. Check the Xcel Energy website ([xcelenergy.com](http://xcelenergy.com)) to verify eligibility. Residential customers please contact Xcel Energy at 800-895-4999 to learn about our residential energy efficiency programs.

### Eligibility requirements

- Rebate items must be installed on the Xcel Energy electric account listed on the application.
- All equipment must be new; used or rebuilt equipment is not eligible for a rebate.

- Equipment must meet specification requirements and be purchased, installed and operating prior to submitting an application for a rebate.
- **Policy Update: 1:1 Effective January 1, 2020**  
Retrofit projects that are not a one-for-one replacements may be submitted through the prescriptive program if the baseline fixtures are reduced by less than 50%. If the retrofit project reduces fixtures by more than 50%, the project will need to be analyzed custom.
- Rebates cannot exceed 60 percent of the project cost (including equipment and labor). The minimum rebate is \$5.
- A signed application and detailed installation invoice(s) must be submitted to Xcel Energy **within 12 months of the invoice date**. Invoice(s) submitted must include itemized quantity, price, manufacturer's make and model numbers, and product codes for each material item and original equipment manufacturer (OEM) specification sheets. Please talk with your Lighting program partner at 575-208-7405.
- Xcel Energy is not responsible for any lost, late, stolen, illegible, misdirected or postage-due mail. All completed submissions become the property of Xcel Energy and will not be returned. Warning: Fraudulent submission of form may result in federal prosecution for mail fraud under 18 USC section 1341, 1342.
- Once completed paperwork is submitted, incentive payments are usually made in six to eight weeks. Xcel Energy will issue rebates in the form of checks, not utility bill credits.
- Equipment must meet the technical requirements listed in this application form. Xcel Energy reserves the right to withhold payment for products that do not meet the requirements.
- Xcel Energy reserves the right to inspect customer facility(ies) for installation of materials listed on this rebate application and will need access to survey the installed project. Customer should keep a sample of any/all types of equipment removed, for a period of three (3) months after receiving a rebate from Xcel Energy. If the inspection finds that you didn't comply with program rules and standards, any rebate you have received must be returned to Xcel Energy.
- Xcel Energy's conservation rebate programs are subject to 60 days notice of changes and cancellation. The customer and contractor are responsible for checking with the Xcel Energy Lighting Efficiency program partner at 575-208-7405 to ask whether or not the program is still in effect and to verify program parameters.
- Xcel Energy reserves the right to publicize your participation in this program, unless you specifically request otherwise.
- Xcel Energy reserves the right to refuse payment and participation if the customer or contractor violates program rules and procedures. Xcel Energy is not liable for rebates promised to customers as a result of a contractor misrepresenting the program.
- Xcel Energy recommends Illuminating Engineering Society (IES) light levels. Information can be found at [iesna.org](http://iesna.org).
- Purchases made from a participating retail location do not qualify for a Lighting Efficiency Rebate. You can find the list of participating retailers at [xcelenergy.com/Bulbfinder](http://xcelenergy.com/Bulbfinder).

## Warranty information

### Xcel Energy

- a. Does not endorse any particular manufacturer, product or system design by offering these rebates;
- b. Will not be responsible for any tax liability imposed on the customer as a result of the payment of rebates;
- c. Does not expressly or implicitly warrant the performance of installed equipment (contact your contractor for detailed equipment warranties);
- d. Is not responsible for the proper disposal/recycling of any waste generated as a result of this project;
- e. Is not liable for any damage caused by the operation or malfunction of the installed equipment; and
- f. Does not guarantee that a specific level of energy or cost savings will result from the implementation of energy conservation measures or the use of products funded under this program.
