

Recommissioning Service Providers

Recommissioning is a tune-up of mechanical systems that saves energy (and money) for existing buildings. If you're interested in discovering how your existing facility's mechanical systems could run better and save energy, you can contact one of the Recommissioning providers listed below or another provider of your choice. The service providers listed have submitted and completed projects in the past two years. For help selecting a provider, see our Recommissioning Guidebook.

Please note: This list does not constitute an endorsement of these providers, nor does it certify or guarantee their work. Recommissioning service providers are not employees or agents of Xcel Energy. All Recommissioning projects require preapproval, and equipment and services recommended in a Recommissioning plan must meet our criteria to qualify for program incentives.

AKF Group

100 South 5th Street
Minneapolis MN, 55402
Contact: Michael J. Dooley
Phone: 203.388.1215
Email: mdooley@akfgroup.com
