

Increase your energy efficiency through a dedicated account representative

Finding and addressing energy-saving opportunities is one way businesses are reducing their energy and saving money. With the help of incentives provided by Focus on Energy and an Xcel Energy account representative to help you navigate your options, we can help you find money savings you can reinvest into your energy-efficiency improvements. Contact an account representative today to get started.

Here's how we can help:

- Resources to help put you on the path to greater energy efficiency
- Incentives through Focus on Energy
- Additional incentives from Xcel Energy (up to \$4,000 per location)*
- Dedicated Xcel Energy Account Representative for your business

Money-saving incentives available:

1. Commercial and Industrial — Including agriculture, commercial, industrial, multifamily, schools and government facilities.
2. Xcel Energy's Community Conservation Program — Examples of available incentives include upgrades to lighting, heating and cooling, motors, compressed air and refrigeration.
