

HVAC-R DISHWASHER REBATES

INFORMATION SHEET
COLORADO

Did you know ENERGY STAR® certified dishwashers run around 40 percent more efficiently than standard models? Upgrade to an ENERGY STAR certified model and you could save up to \$3,000 each year per appliance. With available rebates from Xcel Energy, you could see a fast return.

Consider these benefits:

- Lower water and energy costs
- Improved nozzles and rinse arm design
- Advanced controls and diagnostics

See what you could save through rebates and reduced water and energy consumption.
