Terms and conditions

Rebate details
Xcel Energy issues rebates in the form of checks or utility bill credits. ACH payments are available to customers enrolled in Autopay through 'MyAccount'. Xcel Energy is not responsible for inaccurate information provided by other sources about the amount and/or condition of the actual rebate or product eligibility. Account holders may allocate rebates to alternate rebate recipients by completing the Alternate Rebate Recipient section on the rebate form.

Application details
Account holder applications must be postmarked no later than September 30 of the year following purchase date of qualifying product. A copy of the dated sales receipt or invoice must accompany complete customer and equipment information. Failure to complete this information will result in a returned application. Xcel Energy reserves the right to refuse payment and participation if the customer or contractor violates program rules and procedures. Xcel Energy is not liable for rebate promised to customer as a result of a contractor misrepresenting the program. Xcel Energy does not expressly or implicitly warrant the performance of installed products or services (contact your contractor for detailed equipment warranties). Contractors must inform customers if air-sealing measures have created the need for mechanical ventilation in the home.

Special promotions
In the event of a special promotion for this program, it is the account holder/contractor's responsibility to ensure all paperwork is postmarked by the deadline. Xcel Energy will not pay special promotion incentive dollars in the event that a form is lost or not postmarked by the deadline. Promotional rebate amounts will be automatically calculated by Xcel Energy. Promotion deadlines close at midnight on the date the application is due.

Qualifying account holders
Xcel Energy residential natural gas customer who heat primarily with natural gas, or electric residential customers who heat primarily with electricity are eligible for corresponding rebates when buying qualifying products and services. Rebates are applicable only for the purchase and installation of qualifying products and services sold by participating contractors. Property owners or landlords who are listed on the Xcel Energy account associated with this rebate may sign for and receive rebates for installed products and services. Participants understand they are not eligible to receive a rebate for an improvement earned under a different Xcel Energy Rebate program.

Questions about rebates
For questions regarding rebates, please contact Xcel Energy Customer Care at 800-895-4999 or via email at EE-Team@xcelenergy.com.

Qualification Details
Air sealing must be done with qualifying attic and/or wall insulation. Air sealing alone does not qualify for a rebate. Program excludes new residential construction, new additions, insulation of doors, garages, sheds, workshops, basements, mobile homes and other below grade installations.
Contractor must conduct pre-job blower door test and a post job blower door test. The results must be included on the front of this form along with pre and post R-values for insulation. A reduction of at least 15% in CFM50 must be achieved in order to receive the air-sealing rebate amount. Homes that do not acheive a 15% reduction in CFM50 may not receive the air-sealing rebate, but may receive insulation rebates according to program rules.

Heat Pump Bonus Rebate
Bonus rebate of $600 for customers who install qualifying insulation and air sealing first, followed by installation of a qualifying heat pump within two years of installation of the insulation.

Registered Contractors
Rebates are available only to customers who use a contractor that is registered in the residential Insulation Rebate program. See https://hvacree.net/xcel/public_search.cfm for a list of registered contractors.

Insulation and air sealing measures must be purchased from and installed by a contractor who is currently registered with Xcel Energy's Insulation Rebate program, and who currently has a Building Performance Institute (BPI) certified technician on staff. Qualifying certifications include: BPI Analyst, Envelope or Residential Building Envelope Whole House Air Leakage Control, Quality Control Inspector, Air Leakage Control Installer, Crew Leader, Energy Auditor, Building Analyst Technician or Building Analyst Professional.

Limitations
Rebate qualifications and amounts are subject to change any time. Our rebate programs may be cancelled or changed with 30 days notice. Please visit us at xcelenergy.com/HomeRebates or call 800-895-4999 to determine whether any program changes have occurred.

Rebate Submission
Mail complete applications to:

Xcel Energy Rebate Operations
P.O. Box 829
Minneapolis, MN 55440-0829

or
