

North Dakota
Commercial and Industrial
Electric Prices

Effective January 1, 2015

The rates below appear on your bill under Electric Charges.

Basic service charge

A fixed monthly charge that covers the costs related to metering, billing, customer service, and other costs that are not dependent on how much electricity you use. This charge is the same each month.

Energy charge

A kilowatt-hour (kWh) charge that covers some of the costs of generating power. When billing does not include a separate demand charge, the energy charge also includes the costs of operating and maintaining the distribution and transmission system. The total energy charge on your bill depends on how much electricity you consume each month.

Demand charge

A kilowatt (kW) charge that covers the cost of the distribution and transmission system, as well as the cost of generating capacity required for system and customer peak loads. Bills that include a demand charge have a lower energy charge. The number of billed kilowatts applied to the demand charge is based on the highest 15-minute peak period of usage measured during the month. Billed demand is increased if your power factor is below 90 percent, but will not exceed the value determined by dividing billed kWh sales by 100 hours, based on a 30-day month. If the billing demand is less than 25 kW for 12 consecutive months, you have the option to transfer to Small General Service.

Fuel Cost Charge (FCC)

A kWh charge for the cost of fuel (coal, uranium, and natural gas) and purchased power used to provide electricity. These actual costs vary by month and are directly passed through to customers with no additional margin as a part of the monthly bill for all classes of electric service.

Peak and energy controlled rate options

These options offer discounted prices for business customers willing to interrupt a portion of their service when asked to do so. Please contact Xcel Energy for these and other rate options.

Saver's Switch®

This optional service is available to customers with central air conditioning that is under Xcel Energy's control. Xcel Energy will normally control air conditioners on a schedule of 15 minutes on and 15 minutes off during high demand summer weekdays. The minimum term for this program is one year. Your monthly bill will show a Controlled Air Conditioning Credit (\$5 per ton per summer billing month) during the June through September billing months.

Outdoor security lighting

This optional service is available to customers desiring nighttime security lighting. For each lighting unit, your monthly bill will show one of the following charges:

Area units

100 Watts (W) High-Pressure Sodium (HPS)	\$6.70
175 W Mercury*	\$6.70
250 W HPS	\$11.63
400 W Mercury*	\$11.63

Directional units

250 Watts (W) High-Pressure Sodium (HPS)	\$12.89
400 W Mercury*	\$14.80
400 W HPS	\$15.82

**Available to existing installations only*

Minimum charge

Your monthly minimum bill will always include the Basic Service Charge or any applicable Customer Charge even if energy use for the month is zero. These charges help recover those specific costs that do not change with the amount of electricity you use.

City fees

Xcel Energy collects fees or additional charges as required of our franchise or other agreement with the following communities: Cummings, Fargo, Grand Forks, Hatton, Larimore and West Fargo.

Service processing charge

Xcel Energy will charge \$15 for the initial establishment or the re-establishment of service for each customer. If any combination of gas or electric services requested by a customer and furnished by Xcel Energy is established at the same time and location, only one \$15 charge will be made.

Service reconnection charge

Xcel Energy will charge \$50 for reconnecting service that has been disconnected for non-payment.

Service relock charge

Xcel Energy will charge \$100 for reconnecting service where it has discontinued service for non-payment and subsequently returned to relock the service after it was reconnected without Xcel Energy's authorization.

Late payment charge

If you do not pay the amount by the due date shown on the bill, Xcel Energy may add a late payment charge of 1 percent of the unpaid portion to the next month's bill.

Returned check charge

Xcel Energy charges \$15 for any payment, check or draft dishonored or returned by a financial institution.

Optional electric services

Please call the Xcel Energy Business Solutions Center at 800.481.4700 to help determine which service and rate is best for your electric needs and to sign up for an optional service.

Types of service	Description	Monthly charges and rates																																										
<p>Small general service This service is available to any nonresidential customer for single- or three-phase electric service supplied through one meter where the maximum demand requirement is less than 25 kilowatts (kW).</p>	<p>The Basic Service Charge helps cover those specific costs that do not change with the amount of electricity you use; for example, your meter, maintaining your account, etc.</p>	<table border="0"> <tr> <td>Basic Service Charge</td> <td>\$16.75</td> </tr> <tr> <td>Energy Charge per kWh:</td> <td></td> </tr> <tr> <td> June through September</td> <td>\$0.07512</td> </tr> <tr> <td> October through May</td> <td>\$0.05932</td> </tr> </table>	Basic Service Charge	\$16.75	Energy Charge per kWh:		June through September	\$0.07512	October through May	\$0.05932

North Dakota
Commercial and Industrial
Natural Gas Prices

Effective July 1, 2007

Natural gas charges

The volume of natural gas you use is measured in units of 100 cubic feet (ccf), recorded on your natural gas meter and shown on your bill each month. The amount of heat energy, in therms, contained in the natural gas you consume becomes the basis for part of the bill.

Depending on your particular usage requirements, you have one of the three Xcel Energy service plans described in the table with the following related charges.

Basic service charge

The Basic Service Charge recovers some of the monthly fixed costs associated with providing natural gas delivery service. Those costs do not vary with the amount of natural gas you consume and include metering, billing and maintenance of your equipment and your account. Your monthly bill will always include the Basic Service Charge even if there is no energy use in a given month.

Distribution charge

The distribution charge also recovers a portion of the costs of delivering natural gas service to your business. This charge varies with the amount of natural gas you use.

Cost of Gas (COG) charge

The COG Charge reflects the wholesale cost of natural gas purchased by Xcel Energy. Xcel Energy does not mark up these costs, but instead, passes them to consumers on a dollar-for-dollar basis. Whenever Xcel Energy's natural gas suppliers change their prices either up or down, your COG charge reflects that change. Variations in the price of supplemental propane and liquefied natural gas also impact your COG Charge.

Pressure correction adjustment

The volume of natural gas you use may be adjusted for pressure. When deliveries of natural gas are made at pressures other than base pressure, the volume of the natural gas is changed. This adjustment is made to accurately determine your natural gas consumption.

Heat content adjustment

The volume of natural gas you use is also adjusted when the heat content is higher or lower than 1,000 BTUs.

Types of service	Description	Rate
Commercial and industrial service	Available to any firm commercial or industrial customer with peak daily demand requirements of less than 500 therms.	<p>Monthly basic service charge \$30.00</p> <p>Distribution charge \$0.1080 per therm</p> <p>Cost of Gas (COG) charge per therm (changes monthly depending on market forces)</p>
Interruptible service	Available to any commercial or industrial customer with maximum hourly use requirements over 10 therms and who agrees to curtailment conditions. Your bill will show monthly prices for Small (gas use less than 2,000 therms per day) or Large (gas use of 2,000 therms or more per day) Interruptible Service.	<p>Monthly basic service charge Small: \$75.00 Large: \$275.00</p> <p>Distribution charge Small: \$0.0880 per therm Large: \$0.0512 per therm</p> <p>Cost of Gas (COG) charge per therm (changes monthly depending on market forces)</p>
Interruptible transportation service	Available to any commercial or industrial customer who has made arrangements with an entity other than Xcel Energy to supply their natural gas using the Xcel Energy delivery system. Customers choosing this option are subject to curtailment.	<p>Monthly basic service charge \$300.00</p> <p>Distribution charge Negotiable price between \$0.0060 and \$0.0512 per therm. This service involves special terms and conditions. Contact Xcel Energy for more details.</p>

City fees

Xcel Energy collects fees or additional charges as a requirement of our franchise or other agreement with the following cities: Casselton, Fargo and Grand Forks.

Sales tax

The charges for energy use and city fees are subject to a 2 percent state sales tax and city sales taxes in Buffalo, Casselton, Fargo and West Fargo. Customers who are exempt from state sales tax are also exempt from city and county sales tax.

Service processing charge

Xcel Energy will charge \$15 for the establishment of natural gas service. If a customer requests a disconnection of service and then reestablishes service at the same location within a 12-month period, additional fees will apply.

Service reconnection charge

Xcel Energy will charge \$50 for reconnecting service that has been disconnected for non-payment.

Late payment charge

If the amount due is not paid by the due date shown on the bill, a late payment charge of 1 percent of the unpaid balance will be assessed and added to the next bill.

Returned check charge

Xcel Energy charges \$15 for any payment, check or draft, not accepted by a financial institution.

Other information

Other terms and conditions may apply to natural gas service. Complete rate schedules, rules and regulations are available by calling the Xcel Energy Business Solutions Center at 800.481.4700.

Monitor your account and manage your bills—online

Maximize your time by managing your account and paying bills online, through My Account with eBill.* Use these convenient tools to get tips on conserving energy and reducing your bill, set up optional email alerts and more.

Visit [xcelenergy.com/MyAccount](https://www.xcelenergy.com/MyAccount) and enroll. Then log back in, click on the Current eBill tab and follow the prompts to add eBill.

** For eBill enrollment, accounts with multiple premises must use synchronized billing. Gas Transport customers and customers using EDI can sign up for My Account access but the eBill option is not available.*
