

ENERGY ADVISORS AND ACCOUNT MANAGER CONTACTS

INFORMATION SHEET
MINNESOTA

Our dedicated account managers and energy advisors are here to help serve our customers. Feel free to contact account managers for specific large commercial and industrial customer efforts and our energy advisors for small to mid-size business energy projects.

Energy Advisors in the Business Solutions Center

Collaborating with our energy advisors will arm you with knowledge you can use to make energy improvements. Contact our energy advisors for ongoing support with:

- Identifying rebate programs and services that will maximize results
- Completing rebate applications and other required documentation
- Referrals to financial and/or other supporting resources
- Determining the most cost-saving rate structure for the business and budget
- Scheduling an Xcel Energy field representative for on-site assessment of certain types of projects
- Troubleshooting any account concerns

Account Managers

Our account managers serve our largest commercial customers on all energy matters, including energy efficiency upgrades. Contact our account managers for a variety of needs:

- Providing training and information to commercial customers
- Codeveloping energy strategies — energy efficiencies, demand management and renewable energy
- Collaborating on customer proposals and projects (new and change service, reliability, power quality, economic development)
