Help with forms

If you are building a new home, you must obtain a sales receipt for the equipment from your builder or retailer. Only one rebate per piece of equipment will be paid.

Rebates for new home construction should be negotiated between the builder and resident or new home buyer to determine who receives the rebate.

If you have questions while filling out this form, please contact your contractor or retailer for assistance. Please allow up to eight weeks for your rebate to arrive.

Qualifying account holders

Xcel Energy natural gas or electric residential account holders in Colorado are eligible for rebates when buying qualifying, high-efficiency, gas or electric water heaters (reconditioned equipment is not eligible).

The program is applicable only for the purchase and installation of qualifying new water heaters sold by participating contractors or retailers for installation in new or replacement applications where natural gas or electric is supplied by Xcel Energy.

If more than one unit is installed at an address, one application per unit is required to receive a rebate for each unit. Participants understand they are not eligible to receive a rebate for this improvement earned under a different Xcel Energy rebate program.

Fuel Type	Equipment	Minimum UEF	Rebate
Natural gas	Storage Tank (Medium Draw)	≥ 0.64 UEF	\$50
Natural gas	Storage Tank (High Draw)	≥ 0.68 UEF	\$50
Natural gas	Tankless	≥ 0.87 UEF	\$100
Electric	Heat Pump Water Heater		\$400
Electric	CTA-2045 Heat Pump Water Heater		\$500

Note: Local, state or federal tax credits or rebates may also be available for energy-efficient home improvements. Ask your tax advisor or visit energystar.gov.

Qualifying equipment

Only equipment listed on the AHRI site (ahridirectory.org— residential section only) or ENERGY STAR® site (energystar.org) are eligible for rebate. Efficiency ratings are determined using the Air-Conditioning, Heating, and Refrigeration Institute (AHRI). Indirect units and commercial water heaters are not eligible. Water heaters with a rated storage volume of 55 gallons or more are not eligible.

Submitting an AHRI or ENERGY STAR certificate with your application and invoice is highly recommended. The AHRI list of qualifying equipment changes frequently. AHRI certificates that are printed and sent in with the rebate application will be honored even if the equipment is no longer listed on the website.
