Fill out appropriately, the **Estimate Completion Date** must be within 18 months. System cost can be estimated.

Array 1  
Please note Array Azimuth cannot exceed 360 degrees, and Array Tilt cannot exceed 90 degrees

|                                      |        |               |       |
|--------------------------------------|--------|---------------|-------|
| Mount Location:                      | Ground | Tracker Type: | Fixed |
| Azimuth*:                            | 180    | Tilt*:        | 45    |
| NamePlate Capacity (KW DC) Array 1*: | 50     |               |       |

Array information must be completed to proceed. If you plan to have multiple arrays with varying Azimuth and tilts within a single garden click the add additional arrays button to provide this detail

Add Additional Arrays (optional)

I agree to meet the low income requirements for the program:

- \* Allocate 5% of the total solar garden acquisitions for low income participants
- \* Provide signed certification from the Colorado Department of Human Services (Certification forms will be available during the application process)

**This must be marked to submit the lead**

By pressing the Send Forward button at the bottom of the application, and assuming the information is all filled out correctly, a time stamp will be assigned to the submission. This time stamp will be used to determine the order of the applications submitted.

Any questions should be sent to
