

Working with the service application form

First time users: The form will load slowly during your first visit. The form is complex and requires code to be cached. Features throughout the form will also have a slight delay during your first visit. For example, the calendar function will take a few seconds to load, please click the calendar icon only once.

Please do not use any commas in any form field. We are currently working through this issue.

Activating the Auto-fill on your browser

If you want the common fields, like owner information, to be automatically filled in when you begin typing, follow these instructions.

For Internet Explorer users -

Select Tools > Internet Options and click on the Advanced tab. Scroll through the list to the Browsing section and check the "Use inline AutoComplete" box. Click the "Ok" and close and re-open your browser.

For Firefox users -

Select Tool > Options and click the Privacy tab. Check the box "Remember what I entered in forms and the search bar." Next, click on the Advanced tab and check the box "Search for text when I start typing." Click the "Ok" button and close and re-open your browser.

Any problems or issues with the form, please contact the Builders Call Line

Texas and New Mexico builders call: 1-877-354-6395

All other states' builders call: 1-800-628-2121
