

Recommissioning

Fast Track Preapproval Application

Fast track preapprovals are granted if you have identified building recommissioning savings outside of an Xcel Energy-funded Recommissioning study. Rebates for implementing fast track measures may be available if the measures meet program criteria. Please submit your Recommissioning measures and calculations along with this form to determine eligibility. Refer to the requirements section on side 2 for more details.

Business customer information

Company name _____ Date submitted _____

Billing address _____ City _____ State _____ ZIP _____

Building address (if different) _____ City _____ State _____ ZIP _____

Xcel Energy premises number: (Elec) _____ (Gas) _____

Customer rate code _____ Building sq. ft. _____ Type _____

Contact person (print) _____ Phone _____

Fax _____ Contact person email* _____

*By providing your e-mail address, you are granting Xcel Energy permission to send further e-mails regarding our programs and services.

Project contact (if different) _____ Phone _____ Fax _____

Customer signature (customer tied to Xcel Energy premises number) _____ Date _____

The information in this application is accurate and complete. The terms and responsibilities section of this application have been read, understood and agreed upon.

Account manager information

Xcel Energy account manager (printed) _____ Phone _____

Signature _____ Date _____

Consulting firm information

Energy analysis and project scope

Must be completed for application to be considered.

Project description

Proposed changes

Analysis results:

Electrical demand reduction _____ kW Natural gas savings _____ Mcf

Electrical energy reduction _____ kWh

Fast track application requirements

1. The analysis must demonstrate an understanding of the current energy and demand consumption of the investigated systems.
2. The analysis must describe what the proposed changes are and what system(s) those changes would affect.
3. Fast track submission should consist of Recommissioning measures only.
4. Any assumptions must be clearly documented.
5. Calculations must be provided for review and must include: kW, kWh and Mcf savings, paybacks, plus electric costs, gas costs, other costs and implementation costs.
6. **Submission process:** Submit this application and attachments to Xcel Energy in one of two ways: Either email an energy efficiency specialist at energyefficiency@xcelenergy.com or contact your Xcel Energy account manager. Your submittal must include:
 - Recommissioning fast track preapproval application
 - Recommended recommissioning measure(s) along with energy-saving calculations

Terms and responsibilities

1. Xcel Energy makes no warranties regarding the recommissioning improvements. All such warranties are between the recommissioning provider firm and the customer. Rebate qualifications do not imply any representation or warranty of the study or measures by Xcel Energy.
2. Xcel Energy’s decision relating to customer eligibility will be final and binding for all parties.
3. Xcel Energy reserves the right to accept or reject any application or information submitted.
4. Customer must obtain Xcel Energy preapproval prior to implementation.
5. Xcel Energy reserves the right to conduct inspections of installation and/or make a reasonable number of follow-up visits to customer’s facility to verify savings estimates and/or measure implementation.
