Customer Information

Xcel Energy premises numbers: Electric: _____ and/or Gas: _____

Company Name: _____ Date submitted _____

Installation address _____ City _____ State _____ ZIP _____

Mailing address _____ City _____ State _____ ZIP _____
(For rebate if different from installation address)

Contact Name (PRINT) _____ Phone _____

Contact Email* _____ Fax _____

Equipment location description (REQUIRED) _____

The total project cost: \$ _____
(Acceptable expenses include equipment and labor and do not include tax, freight or shipping costs.)

Customer Signature _____ Date _____

This signature is required from the individual tied to the Xcel Energy premises number herein. By signing here, I acknowledge the information in this application is accurate and complete. I confirm I have read, agree with and understand the terms and conditions on page 2 of this application. I also authorize Xcel Energy to provide a copy of the project preapproval notification to the equipment supplier or vendor so as to expedite the project process.

Alternative Rebate Recipient

Complete this section only if the customer wants the rebate check to go to someone other than the customer contact tied to the premises number above.

Company Name _____ Contact name _____

Address _____ Phone _____

City _____ State _____ ZIP _____

I authorize the above company to receive the rebate check for this project.

Customer Signature _____ Date _____

Xcel Energy account representative name _____ Signature _____

Trade Partner Information (Vendor/Contractor Information)

Company Name: _____ Trade Partner ID# _____

Contact Name (PRINT): _____

Address _____ City _____ State _____ ZIP _____

Contact email* _____ Phone _____

*By providing your email address, you are granting Xcel Energy permission to send updates or questions via email regarding this project as well as future emails regarding our programs and services.

Qualifying Customers

Xcel Energy prescriptive rebate programs are available to Xcel Energy business electric and/or gas customers that install qualifying equipment in Xcel Energy's Minnesota service territory.

How to Apply for Rebates

1. Fill out the rebate application (for each installation address).
2. Attach a copy of the paid, itemized invoice(s). Be sure that the quantity, make, model number and unit price of each item appears on the invoice.
3. Make a copy of this document for your records.
4. If you have questions please contact your Xcel Energy account manager or one of our energy efficiency specialists to discuss and/or complete the project application form.
5. You can email your completed project paperwork to: energyefficiency@xcelenergy.com, fax to: 1-800-311-0050, or mail to: Energy Efficiency Specialist, Business Solutions Center, P.O. Box 8, Eau Claire, WI 54702-0008.
6. Once completed paperwork is submitted, rebate payments are usually made in six to eight weeks after the rebate application has been processed.

Custom Efficiency Rebate Program

Equipment that is not eligible for prescriptive rebates can be submitted through the Custom Efficiency program. **Preapproval through the Custom Efficiency program is required before the purchase and installation of equipment.** The Custom Efficiency rebate application and program details can be found at xcelenergy.com/CustomEfficiency.

Rules and Requirements

- All equipment must be new. **Used or rebuilt equipment is not eligible for a rebate.**
- Equipment must meet program specification requirements and be purchased, installed and operating prior to submitting an application for a rebate. Xcel Energy reserves the right to withhold payment for products that do not meet the requirements.
- Rebates cannot exceed 60 percent of the project cost (including equipment and labor).
- A signed application and detailed installation invoice(s) must be completed and submitted to Xcel Energy within 12 months (24 months for motors, VFDs and constant speed motor projects) of the invoice date.
- Xcel Energy is not responsible for any lost, late, stolen, illegible, misdirected or postage-due mail.
- All completed submissions become the property of Xcel Energy upon receipt and will not be returned.
- Xcel Energy will issue a rebate in the form of a check.
- Xcel Energy reserves the right to conduct a random on-site inspection of your project before or after issuing a rebate. The customer agrees to provide reasonable access to inspect the installation. On-site inspections may be performed up to one year after the date the rebate check is issued. If Xcel Energy finds that the application does not comply with Xcel Energy

rules and qualifications, any rebate amount may be adjusted, denied or subject to return.

- Program rules, requirements and offer are subject to changes at any time. Xcel Energy's prescriptive rebate programs are subject to 60 days notice of cancellation. Changes or notifications will be posted at xcelenergy.com/Rebates. The customer and trade partner are responsible for contacting an energy efficiency specialist to determine whether the program is still in effect and to verify program parameters. Call 1-855-839-8862 or email energyefficiency@xcelenergy.com.
- Xcel Energy reserves the right to refuse payment and participation if the customer or contractor violates program rules and procedures, or local, state or federal regulations. Xcel Energy is not liable for rebates promised to customers as a result of misrepresentation of the program.
- Xcel Energy's acceptance of the application does not guarantee payment of rebate.
- Xcel Energy retains the right to limit rebates or to make adjustments to correct incentive calculations if necessary. Energy savings calculations are estimates and may vary from actual results.

Warranty Information

- Xcel Energy does not endorse any particular manufacturer, product or system design by offering these rebates.
- Xcel Energy will not be responsible for any tax liability imposed on the customer as a result of the payment of rebates; does not expressly or implicitly warrant the performance of installed equipment (contact your contractor for detailed equipment warranties).
- Xcel Energy is not responsible for the proper disposal/recycling of any waste generated as a result of this project; is not liable for any damage caused by the operation or malfunction of the installed equipment; and does not guarantee that a specific level of energy or cost savings will result from the implementation of energy conservation measures or the use of products funded under these programs.

Qualifying Equipment and Offer**No Loss Drains**

- No Loss Air Drains 90 scfm–2000 scfm.
- The following are not eligible: Manual drains, level operated mechanical traps (float or inverted bucket), electronic operated solenoid valves.
- Rebates for No Loss Air Drains are \$200/drain.

New – VSD Compressors

- Compressors must have a factory integrated variable speed drive to qualify for a prescriptive rebate.
- Specific compressors are 10, 15, 20, 25, 30 and 40 hp. Compressors outside this threshold will round down to the next lowest level e.g., a 27 hp will receive rebate at the 25 hp level (\$2,500).
- Horsepower is based on the compressor drive motor's nameplate without considering the operating service factor or brake hp.
- If the drive motor is rated in kW, please calculate the rebate using the formula: $hp = kW/0.746$, rounded to whole number. Therefore, a 20 kW compressor/ $0.746 = 26.81$, rounds to 27 hp.
- Note: $37 kW/0.746 = 49.6$, rounds to 50 hp which must apply under Custom Efficiency.
- The existing or proposed, operating compressed air system must be less than 50 hp.
- Equipment must not be used as backup.
- Rebates for VSD Compressors are \$100/hp.

Early Retirement – VSD Compressors

- Replacements of working (in-service) compressor(s) with new factory compressors from 10 hp to 49 hp with a factory-installed variable speed drive control qualify.
- Equipment must not be used as backup.
- The existing system must consist of a single rotary compressor unit (< 50 hp) serving on a common header to be eligible. Piston, reciprocating, or any multiple combination of compressor unit types serving a common header do not qualify and must use the New VSD Compressors rebate.
- Replacement may be of equal hp or up to 20 hp lower to qualify.
- An existing load/unload (online/offline) compressor with less than or equal to two (2) gallons of receiver storage per CFM of compressor capacity, or an existing inlet modulation with or without blowdown control which is replaced with an integrated rotary screw compressor that has a factory installed/ assembled motor and VFD/ASD combination is eligible for a rebate.
- Rebates for Early retirement–VSD Compressors are \$100/hp + \$3,000. HP reduction rebate will require documented removal of a compressor.

Mist Eliminators

- Mist Eliminators 125 scfm–1900 scfm with filter element life expectancy of five to 10 years are eligible.
- The rated pressure drop over the life of the element should be 0.75 psig or less.
- Equipment must not be used as backup.
- Rebates for Mist Eliminators are \$3 per rated CFM.

Cycling Dryers

- Cycling Refrigerated Dryers or Variable Speed Refrigerated Dryers 75 scfm–2400 scfm are eligible.
- Non-Cycling Refrigerated are not eligible.
- Equipment must not be used as backup.
- Rebates for Cycling Dryers are \$2 per rated CFM.
- Desiccant Dryers must apply under Custom Efficiency.

Dew Point Demand Controls

- Dew Point Demand Controls 90 scfm–2000 scfm for heatless desiccant dryers are eligible.
- Dew Point Demand Controls for heated or heated blower desiccant dryers must apply under custom efficiency.
- Dryer must have dew point sensor at discharge to monitor demand.
- Equipment must not be used as backup.
- Rebates for Dew Point Demand Controls are \$1,500 per control set.

NO LOSS AIR DRAINS				
No. of units	Manufacturer	Model Number	Rebate	Total Rebate
