	12" green balls			12" green balls		\$32	
	12" red arrows			12" red arrows		\$50	
						Total Rebate \$	

Rules and Requirements

Customer Qualifications

- LED Traffic Signal rebates apply to customers with a valid Xcel Energy commercial account in our Minnesota electric service territory.
- Customers that retrofit their existing incandescent traffic signals to new LED traffic signals.
- Retrofits that result in load reduction.

Equipment Requirements

- Equipment must be purchased, installed and fully operational before submitting rebate application.
- Xcel Energy will issue rebates in the form of a check, not utility bill credits. The minimum rebate is \$5. The maximum rebate is 60 percent of the total project cost.
- Rebates will not be given for equipment that does not comply with Xcel Energy rebate rules; or local, state or federal regulations.
- Rebates are not available for amber LED traffic balls/arrows or green LED traffic arrows.
- Xcel Energy reserves the right to limit any rebate.
- Xcel Energy will reject incomplete rebate application forms. Xcel Energy is not liable for rebates promised to customers as a result of a contractor misrepresenting the program.
- Customers and vendors must submit itemized equipment invoices along with the rebate applications. To ensure that the equipment installed meets Xcel Energy's performance standards, these invoices must itemize labor charges, quantity and price of the equipment installed.
- Customers must apply for rebates within one year of the purchase date shown on the equipment invoice.
- A signed application and detailed installation invoice(s) must be completed and submitted to Xcel Energy within 12 months of the invoice date.
- Xcel Energy reserves the right to conduct random inspections of installations. If Xcel Energy finds that you don't comply with the Xcel Energy rules and standards, any rebate you have received must be returned to Xcel Energy.
- Xcel Energy's Conservation Rebate programs are subject to 60 days notice of cancellation. The customer and contractor are responsible for checking with the Business Solutions Center at 1-800-481-4700 or bsc@xcelenergy.com to ask whether or not the program is still in effect and to verify program parameters.

Warranty Information

Warranties are between the customer and equipment manufacturer(s). Xcel Energy makes no warranties, expressed or implied, with respect to equipment operation, material, workmanship or manufacture. Xcel Energy does not guarantee that a specific level of energy or cost savings will result from the implementation of energy conservation measures or the use of products funded under this program. In no event shall Xcel Energy be liable for any incidental or consequential damages.

PLEASE ALLOW SIX TO EIGHT WEEKS FOR THE REBATE CHECK TO ARRIVE.
