

# FIND WAYS TO SAVE ENERGY AND MONEY WITH A TURN KEY ASSESSMENT AND FREE IMPLEMENTATION SERVICES

## Turn Key Services

Turn Key Services is a full-service program designed to provide our customers with a low-cost, whole building assessment and/or free implementation services to make energy-saving improvements.

There are two ways you can take advantage of this program, depending on what stage you're at with any energy efficiency project.

### 1. Do you want to make your facility more energy efficient, but don't know where to start; or want to identify all possible energy-saving improvements?

Sign up for a low-cost, on-site assessment and get expert advice, a comprehensive report and bonus rebates that'll lower the cost of the improvements you make. Plus, you'll receive free implementation services of your choosing.

### 2. Do you have a specific energy efficiency project in mind, but don't have the resources to get it started and completed?

Take advantage of free implementation services at any time on any qualifying energy efficiency project, with or without getting an assessment.

#### ON-SITE ENERGY ASSESSMENT - sign up and you'll receive:

##### Advice from experts:

An energy advisor will conduct an ASHRAE Level 1 energy assessment at your facility to identify improvements which can have the biggest impact on reducing your energy costs.

Plus, if your building is under 250,000 square feet, you will also receive a recommissioning, or tune-up analysis, to identify low- and no-cost adjustments\* that can be made to existing equipment to reduce energy use.

##### An in-depth report:

Once the assessment has been completed, you'll receive a comprehensive energy assessment report which includes:

- Improvements recommended for your facility
- Potential energy savings
- Outline of simple paybacks
- Listing of rebates available
- Benchmarking for applicable building segments
- An end-use profile to determine what's using the most energy

##### Bonus rebates:

Your Turn Key Assessment may qualify you to earn 30 to 40 percent bonus rebates on select energy-saving improvements you implement from your report within 12 months of your assessment approval date. Tune-up/Recommissioning measures may also qualify for a separate bonus if implemented within nine months.

#### TAKE ADVANTAGE OF FREE IMPLEMENTATION

Whether you received a Turn Key Assessment, or just have an energy efficiency project that you identified on your own that you want to complete, you can take advantage of the program's free project implementation services. Choose the services that are right for your needs — all at no cost:

- Facilitate meetings with internal stakeholders to obtain project approval
- Prioritize conservation opportunities and provide further evaluation
- Conduct a financial analysis on projects being considered
- Evaluate proposals and coordinate/verify project implementation
- Complete and submit rebate paperwork

#### START SAVING

For more information about the Turn Key Services program, contact your account manager or an energy advisor at **855.839.8862**. Visit [xcelenergy.com/TurnKey](http://xcelenergy.com/TurnKey) to download a Turn Key application form and view case studies that show how Turn Key Assessments have helped local businesses save energy and money.

\*Typical measures may include optimizing economizers, outside air reduction, lighting and equipment run time reduction, supply side temperature reset, VAV minimum airflow reduction, unoccupied setback, air leak reduction, supply air static pressure adjustment/rest, coil cleaning.
