

## Solar\*Rewards<sup>®</sup> Candidate Checklist

The application criteria below must be met in order to be eligible for the New Solar\*Rewards production-based incentive program. Any application that does not meet these requirements will be declined. We recommend having the associated Xcel Energy bill on hand when applying for the program, to ensure that all information matches up exactly.

### Application Criteria:

- ❑ Service address within Xcel Energy territory
  - Must have a permanent account set up (no “unit temp” allowed)
  - Must have an Xcel Energy electric meter on site
  
- ❑ Valid Account number and Premise number
  - Must match the installation address
  - Must match what is found on the bill
  - Please verify the meter number on the bill is also the meter to which the PV will be interconnected as submitted in the application
  
- ❑ Customer name on application must match name on Xcel Energy bill
  - If a different name is wanted on application, you must change bill name before applying
  - If two names are wanted on the application- both must be listed on the bill before the application is submitted
  - If the current bill is listed under a construction company name- put the end-use customer name on application. This must match the name used for final customer account setup
  
- ❑ All equipment must be valid and found on the [Go Solar California list](#) ; kW size cannot change by more than +/- 10%
  
- ❑ Customer must meet minimum personal liability insurance policy requirement
  - 20 kW or less: \$300,000
  
- ❑ Systems must be sized such that the expected generation (PV Watts estimate), when combined with other distributed generation resources serving the service address, does not exceed 120% of historical consumption (previous 12 months at the time of application submission)
