**Rebate details**

Xcel Energy issues cash rebates in the form of checks, not utility bill credits. Xcel Energy is not responsible if your contractor provided inaccurate information about the amount and/or conditions of the actual rebate or equipment eligibility.

**Application details**

Qualifying equipment must be purchased and installed between January 1, 2017 and December 31, 2017. Account holder applications must be POSTMARKED by July 31, 2018. More information is available at [xcelenergy.com/Rebates](http://xcelenergy.com/Rebates).

No phone calls will be accepted to provide equipment verification.

An application that is denied due to equipment ineligibility will not be accepted with changed model numbers.

A copy of the dated sales receipt or invoice must accompany complete information on the front of this form. The product invoice must specify all required information. Failure to complete this information will result in a returned application.

Xcel Energy reserves the right to refuse payment and participation if the account holder or contractor violates program rules and procedures. Xcel Energy is not liable for rebates promised to account holder as a result of a contractor misrepresenting the program. Xcel Energy does not expressly or implicitly warrant the performance of installed equipment (contact your contractor for detailed equipment warranties).

**All information on the receipt or invoice must match the information on the rebate application or the application will be returned.**

We reserve the right to conduct random inspections to verify installation of the rebated equipment at the address indicated on the front of this form. If we select your application for a random inspection, the rebate application will not be processed until the inspection has been satisfactorily completed. Inspections may also be performed after rebate payment at Xcel Energy's discretion.

**Limitations**

Rebate qualifications and amounts are subject to change any time. Our rebate programs may be cancelled with 30 days notice.

Please visit us at [xcelenergy.com/HomeRebates](http://xcelenergy.com/HomeRebates) or call 800.895.4999 to determine whether any program changes have occurred.

**Special promotions**

During special promotions for this program, it is the account holder/contractor's responsibility to ensure all paperwork is postmarked by the deadline. Xcel Energy will not pay special promotion incentive dollars in the event that a form is lost or not postmarked by the deadline. No exceptions. Promotional rebate amounts will be automatically calculated by Xcel Energy. Promotion deadlines close at midnight on the date the application is due, with no exceptions.

**Help with forms**

If you are building a new home, you must obtain a sales receipt for the equipment from your builder or retailer. Only one rebate per piece of equipment will be paid.

If you have questions while filling out this form, please contact your contractor or retailer for assistance. Please allow at least six weeks for your rebate to arrive.

**Qualifying account holders**

Xcel Energy electric residential account holders in New Mexico are eligible for a rebate when buying qualified, high-efficiency, new evaporative cooler equipment (a.k.a swamp cooler). Reconditioned equipment is not eligible. The program is application only for the purchase and installation of qualifying, new evaporative equipment sold by participating contractors or retailers for installation in new or replacement applications where electricity is supplied by Xcel Energy. Building

contractors should negotiate with the homeowner to determine who receives the rebate. If more than one unit is installed at an address, one application per unit is required to receive a rebate for each unit. Rebates paid to account holders are limited to two per qualifying household. Participants understand they are not eligible to receive a rebate for this improvement earned under a different Xcel Energy program.

Rebate	Premium system
Up to \$700	85% media saturation or above

Note: Local, state or federal tax credits or rebates may also be available for energy efficiency home improvements. Ask your tax advisor or visit [energystar.gov](http://energystar.gov).

**Qualifying equipment**

To qualify for a rebate, equipment must be new and have a media saturation effectiveness of 85% or higher. It must be a permanently installed direct, indirect or two-stage evaporative cooling unit.

Portable coolers or systems with vapor compression backup are not eligible, nor is used or reconditioned equipment.

A list of prequalified evaporative cooling equipment that meets the minimum efficiency requirements for the program is available on our website at [xcelenergy.com/HomeRebates](http://xcelenergy.com/HomeRebates), or by calling 800.895.4999. Other equipment may be considered if acceptable documentation from the manufacturer is provided confirming the operational performance standards of your selected unit (ex. technical specification sheets, letter or email stating specifications, etc.).

Please include the items listed below on your application form and purchase receipt. If all of the items are not included the application will be returned.
