Project/Rebate Information

Please provide the following information for the rebate calculations. Xcel Energy will calculate the total rebate amount.

PROJECT DETAILS	
Low Temperature Case Design Load	_____ Btu/h
High Temperature Case Design Load	_____ Btu/h
Project Cost	\$ _____
Total Rebate*	\$ _____

To obtain instant rebate preapproval and determine your rebate amount, use our Rebate Preapproval Tool or contact your account manager. To find the Rebate Preapproval Tool, visit xcelenergy.com/rebates and select Refrigeration Recommissioning.

*Rebate is based on the Btu/h and cost supplied and is calculated by Xcel Energy.

INTERNAL USE ONLY – PLEASE DO NOT WRITE IN THIS SPACE

Rebate Operations _____ Date _____

Rules and Requirements

Xcel Energy provides energy-efficiency rebates for optimizing your existing refrigeration system. Additional recommissioning rebates, not listed on this application may be available through our Recommissioning program that requires preapproval prior to project initiation and purchase of equipment.

Customer Qualifications

This program applies to customers with a valid Xcel Energy commercial account in our Minnesota or Colorado electric service territory. Check the Xcel Energy Web site (xcelenergy.com) to verify eligibility.

Eligibility Requirements

- Rebate items must be associated with the Xcel Energy electric account listed on this application.
- Changes to refrigeration equipment must have been made prior to submitting an application for a rebate.
- Rebates cannot exceed 75 percent of the project cost (including equipment and labor). The minimum rebate amount is \$5. Xcel Energy reserves the right to limit any rebates. Once paperwork is submitted, rebate payments are usually made in 6 to 8 weeks. Xcel Energy will issue rebates in the form of checks, not utility bill credits.
- A signed application and invoices must be submitted to Xcel Energy within 12 months of the invoice date.
- Xcel Energy reserves the right to inspect customer facility(ies) for rebated items and will need access to survey the completed project. If the inspection finds that you didn't comply with program rules and standards, any rebate you have received must be returned to Xcel Energy.
- Xcel Energy's conservation rebate programs are subject to 60 days notice of cancellation. The customer and contractor are responsible for checking with our Business Solutions Center at 1-800-481-4700 or www.xcelenergy.com/rebates to determine whether the program is still in effect and to verify program parameters.
- Xcel Energy reserves the right to publicize your participation in this program, unless you specifically request otherwise.
- Xcel Energy reserves the right to refuse payment and participation if the customer or contractor violates program rules and procedures. Xcel Energy is not liable for rebates promised to customers as a result of contractor misrepresenting the program.
- Xcel Energy's decision relating to customer eligibility will be final and binding for all parties.
- Xcel Energy is not responsible for any lost, late, stolen, ineligible, illegible, misdirected or postage-due mail. All completed submissions become the property of Xcel Energy and will not be returned. Warning – Fraudulent submission of form may result in federal prosecution for mail fraud under 18 USC sections 1341, 1342.

How to Apply for Rebates

1. Fill out the rebate application.
2. Mail the following to Xcel Energy:
 - Completed and signed rebate form
 - Paid itemized invoices
 - Copy of the simulation report. The simulation report is analysis that shows 1) what the original operating conditions and the resulting energy consumption were 2) what the rectified operating conditions and resulting energy consumption were.

Send all items to your account manager or:

Warranty Information

Xcel Energy does not endorse any particular manufacturer, product or system design by offering these rebates. Xcel Energy is not responsible for the proper disposal/recycling of any waste generated as a result of this project. Xcel Energy will not be responsible for any tax liability imposed on the customer as a result of the payment of rebates. Xcel Energy is not liable for any damage caused by the operation or malfunction of the installed equipment. Xcel Energy does not guarantee that a specific level of energy or cost savings will result from the implementation of energy conservation measure or the use of products funded under this program.

Xcel Energy makes no warranties, expressed or implied, with respect to equipment, operation, material, workmanship or manufacturing. Xcel Energy does not expressly or implicitly warrant the performance of installed equipment (contact your contractor for detailed equipment warranties). Warranties are between the customer and the contractor/manufacturer. In no event shall Xcel Energy be liable for any incidental or consequential damages.
