

Compressed Air Study Providers

Fluid System Optimization and Compressed Air studies will examine one or multiple systems depending on your facility needs. With our study funding, a pre-approved study will help you identify energy savings associated with energy waste. Here are a list of participating providers to conduct your study.

The participating providers have agreed to execute studies as detailed by our program and have indicated their areas of expertise here. Participating providers are not employees or agents of Xcel Energy. This list does not constitute an endorsement of these study providers, nor does it certify or guarantee the quality of work performed.

Preapproval is required for all studies and custom projects. See program application for terms and conditions.

For more information on the management of this list, please contact an energy advisor at **855.839.8862**.
